# Broken and Beaten, Iraq Slides Into 'Surreal Poverty'

By Youssef M. Ibrahim
New York Times Service

BAGHDAD — Children lie on filthy hospital beds, murmuring in pain as they die of diarrhea and pneumonia. Some of the Arab world's finest artists peddle their work for as little as \$12 a painting. A 50-year-old retired policeman, victim of a stroke a year ago, limps from merchant to merchant in a food market looking for what he can afford on a pension driven down by inflation to the equivalent of \$2 a month, barely enough to buy one chicken or a handful of rice.

In this city, which only five years ago ranked as one of the most vibrant and prosperous capitals of the Middle East, the plight of Iraq is amply evident, but political improvement is not. Gone are the mounds of

middle class, the pagnt of traq is amply evident, but political improvement is not. Gone are the mounds of imported goods, sweets, pistachios and varied nuts that were a fixture of many Baghdad street markets. They have been replaced by spontaneous flea markets where sullen middle-class men and women offer their

trained troops toward the Kuwaiti border, only to be rebuffed by U.S. military countermeasures, the world has been duly reminded of the stringent trade sanctions imposed four years ago by the United Nations. If that was President Saddam Hussein's intention, he was successful. If it also was his hope that the UN could be persuaded somehow to lift the embargo, he

This country of 20 million people — which sits atop oil reserves second only to Saudi Arabia's — remains financially broken, hurching from one crisis to another. Unable to sell its oil and buy food, medicine and spare parts except under UN conditions that it refuses to accept, Iraq faces famine and economic collapse.

Despite the hardships, Mr. Saddam, his two sons and potential political hears, Uday and Qusay, and his

cutlery, used furniture and family possessions for sale to make ends meet.

In the two weeks since Iraq moved some of its bestble to public dissent, protected by an intelligence and security apparatus directed by his son Qusay and a handful of relatives.

> Although the Iraqi president has rarely been seen in public in the last few years, his presence remains overwhelming. He appears in taped television programs broadcast daily. His face peers down from thousands of posters and statues throughout the countries of th try. He continues to claim victories and inveigh against enemies. And his government does not dis-courage journalists from the West from reporting firsthand on the economic ruin that he blames the international community for.

> "This used to be a rich country," said an Iraqi intellectual who described himself as having been a

day, I'd say not more than I million Iraqis are living in any real sense of the word. They are those who uphold Saddam's rule and those who protect him. They are given food and plenty of money. The rest of us are drifting into this surreal kind of poverty where univer-sity professors sell their family's possessions to eat. It is breaking down the very fabric of this society.

"Sometimes, when I hear foreign radio broadcast sometimes, when I hear toreign rathe or organizations from America or Britain that the only way to salvation is to get rid of Saddam, I say to myself, 'Do they think we are some kind of video game or what?" 's said the man, who, like everyone interviewed outside government circles, insisted on anonymity. "You are looking at a people whose energy is drained simply looking for the next west." simply looking for the next meal."

For their part, Iraqi officials are eager to enforce the

# Consortium **Plans Mix** Of Cable TV **And Phones**

By Lawrence Malkin mational Herald Tribune

NEW YORK — Sprint Corp. and three of the largest American cable operators said Tuesday that they would join a radical new venture to provide consumers with telephone, television and computerized information services — all through a single wire in the wall.

The consortium will attempt to shoulder aside America's regional "Baby Bell" telephone companies, which now monopolize local telephone service.

Taking part with Sprint, which operates the nation's third-largest longdistance network of fiber-optic cables, are Tele-Communications Inc., Cox Enterprises Inc. and Comcast Corp., which together serve 30 million

If their corporate alliance holds together and attracts other local cable TV companies, as they hope, the cassing battle against the giant AT&T Corp. and the regional Bell companies will be the biggest and most strategic since the breakup of the Bell System in 1984 opened the way to unparalleled confusion, opportunity and, finally, innovation in the telecommunications

Like the earlier realignment, this one also is likely to penetrate abroad, however slowly. TCI and Cox already provide combined phone and television service in Britain and say they are increasing their market steadily. And Sprint recently sold a 20 percent stake to the German and French national telephone companies for \$4.2 billion, which its chairman, William T. Esrey. said would become a war chest for expanding and upgrading service in

"This means the end of the Baby Bells," said Philip Serlin, a communications analyst at Wertheim Schroder & Co. He based that obituary on his calculation that the television compamies can upgrade their coaxial cable systems to provide telephone and digital-quality service at half the telephone companies' cost.

The only remaining barrier to a free flow of calls between traditional phone service customers and potential customers of the proposed televisionphone package is the Bell companies' high access charges. A bill to limit those charges severely made it halfway through Congress before it was blocked by intense Baby Bell lobby-

The bill also sought to allow the regional Bells to compete in offering long-distance and cable TV services. But John Malone of TCI, the most powerful cable operator in the United States, said the new consortium was able to leapfrog competition "with seamless connections before anyone else can get there."

The stakes are huge: Local tele-phone service in the United States generates about \$85 billion a year in revenues - four to five times the size of the nation's cable business, which has wired up about half the nation's homes and has more or less reached its

# The Coming of Peace Strangles Jericho's Palestinians

By Barton Gellman Washington Post Service

JERICHO - The abundance of his produce stand, piled high with eggplant, pom-elo and lemon, comes across as a bitter joke to Fahed Walaji. Up to half his stock is rotting each day, and what he does sell goes at prices he can barely believe.

"Just vesterday I bought from him a box of 15 kilos of bananas for 10 shekels — you know how cheap that is?" interjected Abu Heshem Jalayta, who runs the Love Life time, and some of them cannot pay for Palestinians who live between them.

Jericho is strangling. Cordoned tightly between sealed-off markets in Jordan and Israel, this Palestinian self-rule town is surrounded by lush groves of banana and citrus trees with no one to buy what they produce. "There is no way out," Mr. Ja-

# Clinton Asks The Mideast To Follow The Brave'

Meeting With Arafat To Precede Historic Israel-.Iordan Accord

By Ann Devroy

Washington Post Service
CAIRO — With a call to "all parties to follow the brave and hopeful inspiration of Israel and Jordan," President Bill Clinton arrived in Cairo Wednesday for a four-day trip filled with ceremonies of peace and the challenge of nudging holdouts closer to the goal of a comprehensive Middle East

Mr. Clinton, accompanied by a large contingent of American officials, security agents and Jewish and Arab-American activists, was greeted by President Hosni Mubarak of Egypt and was to visit the tomb of Anwar Sadat, the Egyptian president who made peace with Israel and was assassinated in 1981.

Mr. Clinton also was to meet Wednesday with Yasser Arafat, chairman of the Palestine Liberation Organization, for discussions on the agreement signed by the PLO and Israel in Washington a year ago.

[The Israeli Parliament overwhelmingly approved the Jordan-Israel treaty Tuesday night at the end of a 12-hour televised debate, Reuters reported. The vote was 105

to 3, with six abstentions.

[Islamic militants demonstrated against the treaty in the Jordanian capital, Amman, while Syria, the PLO and the militant Islamic group Hamas voiced hostility to the accord. Mr. Arafat denounced the role that the treaty gives to Jordan in supervis-ing Muslim sites in Jerusalem, a city he wants as the capital of a future Palestinian

As Mr. Clinton left the White House on Tuesday for the overnight flight here, he asserted that his journey was more than a ceremonial celebration of its centerpiece, which is the peace treaty signing Wednesday between Israel and Jordan.

"It is an opportunity to pursue new steps," he said. "My goal is to make clear that the time has arrived for all parties to follow the brave and hopeful inspiration" of Israel and Jordan.

Continued participation by the United States, he said, "is crucial" to building a comprehensive peace, and his intent here is "to stand shoulder-to-shoulder with those who are moving the peace process forward.'

He portrayed his visit as part of a bipartisan United States effort that began with Jimmy Carter's Camp David accords, signed at the White House 15 years ago, and included the Bush administration's laying of the groundwork for a comprehensive peace in Madrid in 1991.

Referring to the signing ceremony between Israel and Jordan, Mr. Clinton said he was helping to fulfill "a mission pur-sued by the United States, and of presidents of both parties, since the end of World War II,"

"Peace in the Middle East is a fundamental interest of the United States," he

# Japanese Insist Europe Aid With North Korea Reactors

By James Sterngold New York Times Service

TOKYO — The Japanese finance minister unexpectedly added a new condition to his government's pledge to help pay for construction of modern nuclear reactors in North Korea on Tuesday by saying that Japan would only supply its financing if European countries also made contribu-

In what could prove to be the first of many questions over how the politically sensitive, multibillion-dollar project will be paid for, Finance Minister Masayoshi Takemura argued in Parliament that since Japan had helped pay for the cleanup of the Chernobyl disaster, Europe was obliged to help cover North Korean reac-

Previously, it had been suggested that an

international consortium would provide part of the more than \$4 billion required for the project, but that roughly 90 percent would come from South Korea and Japan. South Korea's share has been put at as much as 70 percent, since the plants would eventually be merged into a broader Korean power grid if and when the two are reunified.

There had been no explicit mention of European financing. Nor had Japan indicated before that it was establishing preconditions for its critical role in the proect, which is aimed at eliminating North Korea's suspected nuclear weapons program and drawing it out of its menacing isolation.

[President Bill Clinton has written the North Korean leader, Kim Jong Il, promis-See REACTORS, Page 6

#### For Solo Sailor, a Battle Not to Go Down With His Sinking Ship By Barbara Lloyd New York Times Service

Rough seas had been slamming against the hull of Josh Hall's 60-foot sailboat for five straight days. An experienced ocean racer, Mr. Hall was familiar with the sounds and the feel of a turbulent sea, the slapping and banging of the waves, and the seismic motion that runs the length of the boat as it rides up the front side of a wave and falls off the back.

But at dusk, alone in the middle of the Atlantic Ocean on his 31st day at sea in the BOC round-theworld race, the sound Mr. Hall heard was different. In retrospect, it would make the pounding of the previ-

ous five days seem melodious by comparison. "There was an almighty crunch, and then a rending sound," the British sailor said during a ship-to-shore telephone interview from the yacht that had rescued him. "The boat staggered on its feet, so to speak, and I was forced up against the wheel. Obviously,

something very serious had happened up forward." Thus began a wrenching night of struggle and fear for Mr. Hall, during which he battled the torrents of water that rushed through a gaping hole on the star-board side of the hull. He was finally picked up eight hours later by a fellow race competitor in the type of high-seas rescue that gives ocean racing its aura of danger and adventure.

This was the second time that Mr. Hall, 32, was competing in the BOC Challenge, a 27,000-mile (43,700-kilometer) yacht race around the world for solo sailors. He had had a fairly uneventil trip aboard his boat, Gartmore Investment Challenge, since leaving Charleston, South Carolina, on Sept. 17 on the first stage of the race, a 6,800-mile (11,000 kilometer) passage to Cape Town. Although he was alone on his boat, he took a staffaction in knowing that there were 18 other lone sailors out there, too, all in a race to get to Cape Town first.

But there was no comfort for Mr. Hall at dusk on Oct. 17 when he heard the thud at the front of his boat. Regaining his balance, but stunned and frightened, he walked, ran and stumbled through the interior of his sailboat. What he found could not have been worse --a huge hole that he estimates was about two by three feet (60 by 90 centimeters) - on the starboard side of

The watertight bulkhead that is supposed to head off such onrushes of sea water had split. And a six-foot crack in the hull loomed like a lightning bolt shot out of a thunderhead. He had no idea what the boat hit, but guessed that it might have been a submerged container from a passing ship.

"I was just absolutely devastated," said Mr. Hall, "Then panic set in, and my heart went to my stomach. I ran up and down the deck of the boat a couple of times saying, 'What do I do?' What do I do?' "

He was about 700 miles southeast of Recife, Brazil. The time was 7:46 P.M., or 1946 Greenwich Mean Time, the standard by which mariners record their life at sea. And it was no time for all hell to break loose.

First, Mr. Hall triggered his boat's emergency button, an alarm installed on all 19 of the BOC sailboats. It is part of a new communications system set up by The BOC Group, a British multinational company that sponsors the solo competition. Its technology was developed for the race by Trimble Navigation, Comsat Mobile Communications and IBM.

Mr. Hall benefited from technology that was not yet in place when Mike Plant, an American ocean racer, was lost at sea in 1992. The emergency radio beacon on Mr. Plant's 60-foot sailboat, Coyote, sent out a brief distress signal, but the satellite transmission

# **Moscow Uncertain** On Size of Oil Spill

By Steven Erlanger New York Times Service

MOSCOW - Russian offi-Tuesday of a large oil spill from a pipeline in the Russian Arctic republic of Komi, near the city of Usinsk.

But they agreed that the main damage occurred more than a month ago, that some form of cleanup operation had been under way, and that the spillage of oil, while large, was considera-bly smaller than American officiáls said on Monday.

Still, the Russian Ministry for Environmental Protection area on Tuesday to see for themselves.

"The Komi local authorities assert that they are taking all necessary measures to eliminate the consequences," said Vera A.

Lubyako, a ministry aide. "But since the information we are receiving is contradic-tory," she added, aides from various ministries, including the Ministry for Emergency Situations, and officials involved with water purity and fish sup-plies, were traveling to Usinsk. In Washington, the U.S. dep-

uty secretary of energy, William H. White, said Monday that the spill was over 2 million barrels of oil, or eight times the size of the spill when the Exxon Valdez ran aground off Alaska in 1989. He said a dam holding back oil from a badly leaking pipeline burst in heavy rains over the last few days, sending a massive spill toward the Pechora River.

But Russian officials, including spokesman from the oil company concerned, Komineft, said the spill was not so vast. They said the amount of oil involved ranged from 102,200 barrels, the figure provided by Komineft, to 219,000 barrels, the figure provided by the Min-istry for Emergency Situations, to as much as 438,000 barrels, a

and the total liquid involved was 219,000 barrels, covering nearly 70 square kilometers (27 square miles).

A local official who was recently fired as chairman of the have financial difficulties. They Environmental Committee of Usinsk, a city nearby the spill, told a Moscow ecologist, Alexei Retevum, that the spill was as much as 511,000 barrels. But even that is only a quarter of the

figures cited by American offi-

The spill from the Exxon Valcials had differing and some-times conflicting accounts on 240,000 barrels, while the Amoco Cadiz, which ran aground off the Brittany coast of France in 1979, spilled 1.6 million barrels.

As another point of comparison, Thane Gustafson, an expert on Russian oil for Cambridge Energy Research Associates, said that the Russian oil for Cambridge Energy Research sians, "almost as a matter of routine," spill from 36.5 million barrels to 51.1 million barrels of oil on the ground each year.
"The environmental stan-

and Natural Resources sent a dard up there is routinely poor delegation of officials to the at best," said Mr. Gustafson, who had traveled through Komi in December and January with Mr. Reteyum. Local environmental officials, he said, have little money, equipment or legal

powers to enforce regulations. Russian officials acknowledged Tuesday that oil had leaked into the Kolva River and fish-rich Usa River after a dike, built to hold back large leaks from an oil pipeline, burst on Oct. 1 after heavy rains. The Komi region declared an emergency that day.

But the officials said that no oil had reached the Pechora River, which runs into the Arctic Ocean, and that so far some 35,314 cubic feet of oily soil had been collected and 353,140 cubic feet of "oily liquid." They also said there was "no new leak" of oil.

On Tuesday night, Russian Independent Television news showed scenes from the area, including oil-filled streams and oil-covered fields.

The Russian officials said that a Kominest pipeline had been leaking oil since at least late August, despite various patches, and that Komineft and back the oil and other liquids.

Most Russian oil companies do not make a profit on domestic sales, especially since the

#### A Call From Academia to Give Semi-Human Status to Apes

After years of intensive studies with pygmy chimpanzees and other apes, a Georgia State University scientist says their human-like emotions, intellect and ability to acquire language should make them eligible for "semi-human" legal

Dr. Sue Savage-Rumbaugh acknowledges that such status would raise immense moral and legal issues concerning their use in medical experiments and

keeping them in zoos.

But in a new book, "Kanzi: The Ape at the Brink of the Human Mind," written with a science writer, Roger Lewin, Dr. Savage-Rumbaugh says she is convinced that their emotions, intellect and consciousness are at least "morally equivalent" to those of profoundly retarded children.

children in a zoo to be gawked at as examples of nature," she says, "nor would we permit medical experimentation to be conducted on them."

#### Short Takes

The Coors Brewing Co. will ask the U.S. Supreme Court next month for the right to print alcohol content on its beer labels. The federal Bureau of Alcohol, Tobacco and Firearms wants the court to uphold a law that bans that information on labels unless required by state law. Congress passed the law in 1937 to put an end to strength wars that broke out among brewers after the repeal of Prohibition. Coors said it is concerned about a rumor that its beer is weak.

With the backing of several corporate sponsors, Fernando Mateo, a New York businessman, has announced a nationwide effort to take guns off the streets for Christmas. A publicity campaign will list a wide variety of gifts to be exchanged for guns. Mr. Mateo is credited with taking 3,000 guns off New York City streets last year by offering gift certificates. This year, in a coordinated effort called Goods for Guns, police depart-"We certainly would not put these | ments and corporate sponsors will swap

apparel, footwear, toys, sporting equipment, electronic equipment and music recordings for weapons. Mr. Mateo said he hoped to take 18,000 guns off the streets by exchanging \$1.8 million worth of goods. This works out to gifts averaging \$100 per weapon.

Prince Hamlet of Denmark was found guilty of multiple murder before a packed house at the City Bar Association in Manhattan. In an evening of infinite jest. The New York Times reports, the defense attorney. Daniel J. Kornstein, argued that Hamlet was the product of a dysfunctional family and had a flair for delusional behavior. Having survived a poison-tipped sword, "he's been rotting in jail for these 400 years," Mr. Kornstein said, calling this an example of what his client once called "the law's delay." The prosecutor, Stephen Gillers, said Hamlet "has been able to buy into contemporary notions of victimology he's a victim of his victims!" The threejudge panel agreed that Hamlet should be convicted of murdering Claudius and Polonius; they disagreed about Laertes. Rosencrantz and Guildenstern.

WASHINGTON - Americans may be giving credit though not much - to President Bill Clinton for an improving national economy and the administration's recent foreign policy initiatives in Haiti and the Gulf, according to a new Washington Post-ABC News poll.

The survey found that a growing number of Americans believe the nation's economy is getting better, not worse. Four out of 10 rated the overall health of the economy as excellent or good - more than double the percentage who offered a similarly positive evaluation just over a year ago.

Although few Americans believe that Mr. Clinton deserves most of the credit for the nation's improving economy, more than 8 out of 10 said the president was at least partly responsible for the upturn. And Mr. Clinton's approval rating for handling the economy went up in Post-ABC News ested and the life of the life polls for the first time in six months, to 45 percent, from 43 percent in September.

Overall, Mr. Clinton's job performance rating increased to 49 percent in the latest Post-ABC News poll, up from 44 percent in September. Forty-eight percent of those interviewed disapprove of his handling of the presidency, down from 51 percent last month.

#### Reagan Officials Defend Oliver North

the appropriate to the state of ARLINGTON, Virginia. - Two senior officials in the Reagan administration have defended Oliver L. North, the Republican candidate for Senate in Virginia, against assertions that he ignored information about drug activities by rebel forces in Nicaragua that were fighting the leftist government there a decade ago.

Elliott Abrams, the former assistant secretary of state for Inter-American Affairs, and former Attorney General Edwin Meese 3d disputed the assertions, made in The Washington Post on Saturday, calling them false, malicious and politically motivated. Mr. Abrams and Mr. Meese said that The Post and Mr. North's Democratic opponent, Senator Charles S. Robb, were engaging in a political ploy in a close race by raising issues already resolved by Congress and a special

In 1989, Mr. North was convicted of obstructing the work of Congress, destroying documents and accepting an illegal gratuity, all of which were overturned on appeal. No one has ever been prosecuted on drug charges arising from the Irancontra affair.

# Republican Senate? The Scenario Looks Ugly for Clinton

By Eric Pianin Washington Post Service

WASHINGTON — In the last two years, the Senate has eviscerated President Bill Clinton's economic stimulus package, battered his budget, mugged his crime bill and blocked his universal health care proposal — and that was with Demo-

Now the administration is facing the unnerving possibility of a Republican-controlled Senate led by Bob Dole of Kansas, who has begun laying the groundwork for a challenge to Mr. Clinton in 1996.

The White House also might confront a Senate Banking Committee headed by Alfonse M. D'A-mato of New York, the Republicans' Grand Inquisitor of the administration's messy Whitewater affair, And a Foreign Relations Committee whose chairman would be the curmudgeonly Jesse Helms of North Carolina, the sharp critic of Mr. Clinton's foreign policy who called the president of Haiti, the Reverend Jean-

"murderer."

Democrats hold a 56-to-44 edge in the Senate, a fragile majority that frequently has been unable to withstand Republican filibusters, which take 60 votes to break.

With polls showing widespread disenchantment with the Democratic-run Congress, giddy Republicans are savoring the possibility of transforming the Senate into an incubator and testing ground for their conservative agenda of tax cuts, a balanced-budget amendment, deregulation and increased defense spending.

"I think we'll be strong enough to insist that Clinton come to our agenda rather than letting him establish the terms of the bargain," said William Kristol, once a top aide to former Vice President Dan Quayle and now the head of a conservative think tank, Project for the Republican Future. The main goal, he said, is for Republicans "to lay the predicate for the 1996

campaign."
With Republicans running ahead, even or

A net shift of only seven seats would give the task. Republicans control of the Senate and its powerful committee system.

Such a development would mean an extraordinary transfer of power from Democrats to Republicans.

For example, Sam Nunn of Georgia, chairman of the Armed Services Committee, would relinquish control to Strom Thurmond of South Carolina. The chairman of the Appropriations Committee, Robert C. Byrd of West Virginia, would be supplanted by Mark O. Hatfield of Oregon. And the Judiciary Committee's chairman. Joseph R. Biden Jr. of Delaware, would be succeeded by Orrin G. Hatch of Utah.

Daniel Patrick Moynihan of New York would step aside as chairman of the Finance Committee

for Bob Packwood of Oregon.

Bertrand Aristide, mentally unbalanced and a close in contests for 10 seats held by Democrats, chamber also are vigorously pressing to gain the party is in the best shape to recapture control control of the House for the first time in 40 years, of the Senate since Democrats took over in 1986. although analysts view that as a more difficult

> If the Senate under Democrats was difficult terrain for the president during the first two years of his term, it would be downright hostile to the remnants of his tattered legislative agenda under the Republicans.

> It would be virtually impossible for Mr. Clinton to pass any major legislation, including bills on health care, welfare, campaign finance, lobby-ing and the environment — unless the legislation were framed in conservative Republican terms.

> "They would have the veto pen in the Congress that is normally reserved for the White House and the president," said Senator John Breaux, Democrat of Louisiana.

By the same token, Republicans would have great difficulty passing their legislative agenda because Democrats could use the favorite tool of The House minority whip, Newt Gingrich of Georgia, and other Republicans in the lower the minority party in the Senate — the filibuster.

# Romney's Appeal: He's Not Kennedy

By Sara Rimer New York Times Service

BOSTON - In the hush of his library at 7:30 A.M., Mitt Romney was a formidable sight. His white shirt was imly creased, his black wing tips

The man who is giving Senator Edward M. Kennedy, Democrat of Massachusetts, the toughest race of his 32-year political career had already jogged three and a half miles. And he was whistling.

He had not had a drop of coffee. Mr. Romney, who like many fellow Mormons tries to avoid caffeine, says he has nev-er had coffee or tea. His press secretary arrived with a container of hot chocolate for him.

Mr. Romney was asked about a debate with the senator scheduled for Tuesday night. With the prevailing political wisdom putting Mr. Kennedy slightly ahead these days — a view supported by a recent poll in the Boston Herald — many years in office, the Democrat was a leader who offered the first of two between the candidates this new that the candidates the candida dates this week.

"Of course, I'm nervous," ence. My goodness."

The phone rang, and Mr. Standing alone at a lectern in City Hall, Mr. Giuliani, the city of the region. He also suggested that Mr. Pataki would ultimately have to renege "It's propably the boss" he have and would require welfare. the high school sweetheart who has been his wife for 25 years startled political strategists in and is the mother of their five

In an election year in which challengers are presenting themselves on the basis of what they are not - not incumbents. not career politicians, not in thrall to Washington lobbyists - Mitt Romney may be drawing the starkest contrast of all:

senior senator from Massachutime and that he could help Mr. setts with a liberal legacy and a to give something back. scandal-sheet past. "Mitt Romney is the dream Staten Island who had crossed candidate to run against some-

party lines last year to back Mr. one like Ted Kennedy," said Gerry Chervinsky, who heads Gerry Chervinsky, who heads A New York Times/WCBS- KRC Communications Research, in Newton, and who has been conducting polls during the campaign for The Boston Globe and WBZ television.

"He's younger, he's well-spo-Cuomo would make them more ken, he's good-looking, and he's likely to vote for him, while 9 in good shape," the researcher percent said they would be less said. "He has a pretty blonde Mr. Giuliani, who has appercent said they would be less said. "He has a pretty blonder peared at Mr. Cuomo's side of likely to do so. The vast major-wife and five kids. He doesn't ity, 77 percent, said it would smoke and he drinks milk. He's the perfect anti-Kennedy."

Or at least the perfect "anti-Ted Kennedy." For in many ways, Mitt Romney has supplemented the Eagle Scout image by borrowing from the Kennedy mystique of old, casting himmaculate, his gray-and-black pinstriped trousers were sharpphotogenic family: the Kennedy image that the senator can no longer live up to.

Yet, Mr. Romney has at least one thing in common with Kennedy: Both are rich men from political families. Mr. Romney is a son of George W. Romney, 87, a former governor of Michi-gan who made a short-lived run for the Republican presidential nomination in 1968.

The younger Romney, 47, is also a shrewd businessman who made millions in venture capi-

Mr. Romney has cast himself as a moderate Republican, socially liberal and fiscally conservative. Politically, he says, he is a lot like William F. Weld, the popular Republican governor of Massachusetts, who is expected to win re-election easily on Nov. 8.

Mr. Romney says he sup-ports a woman's right to abortion but opposes forcing states to help pay for the procedure. or a threat to the mother's health,

He supports federal legislation that would prohibit discrimination in the workplace against homosexuals but opposes legalizing gay marriages. "It's probably the boss," he have and would require welfare said, referring to Ann Romney, recipients to work and to be regularly tested for drugs.

But with two weeks left in the campaign, a frequent complaint about Mr. Romney continues to be heard: that after he is finished attacking his opponent, his message grows vague.

Mr. Romney, who easily won his party's nomination in a primary election against a businessman, is making his first foray into electoral politics, he said, because after all his successes and privileges, he wants

#### **FAMILY**

By Ian Frazier. 347 pages. \$23. Farrar Straus Giroux.

#### Reviewed by Jonathan Yardley

AN FRAZIER, a frequent contributor of humorous pieces to The New Yorker and the author, previously, of a best-selling work of nonfiction called "Great Plains," is a writer of grace and charm who seems to have taken the heart of the heart of the United States as his principal subject. Though he has a facile gift for light satire on matters urban and/or literary, his chief interest lies in the America "Out There" in the Midwest and West, an America that he apparently — and properly — believes has more to tell us about real life than does the Manhattan in which he lives

and works. "Great Plains" was an effort to explore that world on a large if not exactly grand scale. "Family" seeks to explore it in comparative miniature, by reaching back through the generations to locate Frazier's own family in the American landscape, in American history and in the American psyche. It is an earnest and good-hearted book; it is also disorganized, ill-focused and self-absorbed. It offers still further proof that few tasks in writing are more chal-lenging and difficult than that of telling one's own story in such a way as to make it pertinent and interesting to others.

among those seeking to write family history with the hope cating the fine if not invisible line between telling enough about one's ancestors and telling too much. Obviously they need to be there, for a family without ancestors is no family at all; but if they are there to excess, the reader gets lost in a swarm of names.

The family participated in west virtually everything that happened to the country itself. This included vast movements more clearly understood by later historians than by the participants the move to the West, the move to the cities, the move to the suburbs - and great events, most notably the Civil War. It also included all the everchanging minutiae of ordinary life, the details of which Frazier chronicles - or, more accurately, lists - in exhaustive detail; some readers no doubt will find these passages charming, but in my view they take the easy way out, substituting compilations of the quaint for a deeper knowledge of the particular time and place.

This is in keeping, though, with the overall mood of "Family," which is nostalgic and elegiac. Like many of us who re-One of Frazier's problems - gard America at the shank end

# 3 Guilty in Township Murder of American

By Paul Taylor hington Post Service

**JOHANNESBURG** Three young black men were convicted Tuesday of murdering Amy Biehl, an American exchange student, in a mob attack 14 months ago motivated by anti-white hatred.

Judge Gerald Friedman of the Supreme Court ruled that the three - Vusumzi Ntamo. 23, Mongezi Manqina, 22, and Mzikhona Nofemela, 19 — "had the direct intention of killing the deceased" when they stoned and stabbed her repeatedly after she drove into Guguletu, a black township outside of Cape Town, to drop off three black friends.

The 26-year old Fulbright Scholar from Newport Beach, California, had been in South Africa to help with voter education and to research women's rights issues. The murder occurred in Au-

gust 1993, as a tense, violence-

prone and racially divided nation began preparing for its first election in which blacks were allowed to vote. The slaying drew worldwide attention because it cast light on the anti-white racism among

a generation of militant black

youths who came of age in a

society notorious for having legalized anti-black racism. Miss Biehl, an idealistic, high achieving scholar-athlete who wore a "Free Mandela" sign on her mortarboard when she graduated from Stanford, was drawn to South Africa by a desire to help bury the racist sys-

American murder victim of the political violence that claimed 20,000 lives in the decade preceding the historic election in April. She was killed two days before she was to have completed her 10-month stay in South Africa and returned to the States, where she planned to and intimidation.

continue her studies and get married. There are no jury trials in South Africa. Judge Friedman, who is white, presided over the politically charged 11-month Their appearance triggered trial with the assistance of two

assessors, one of them black. Technically, the three could receive the death penalty. But because South Africa's new, democratic government is expected to outlaw capital punishment, they are more likely to be given prison terms.

instead, she became the only attackers almost collapsed before the trial began. On the opening day last November, the state was forced to drop charges against three of six original defendants when three eyewitnesses indicated that they would not testify, citing a combination of political reasons

> The trial's shaky start troubled the Biehl family, and early this year the deceased's mother and sister traveled to Cape Town to observe the proceed-

# how to

(Using WorldPlus<sup>sm</sup> Communication Service.)

Down under, they're just starting work for the day. The perfect time to speak to the Sydney office. Except for one thing. Where you are it's night-time and your evening with friends is in full swing. Once again you have to pur your life on hold, just so a business associate gets the message.

Not any more. WorldPlus Communication Service from AT&T has been designed to help you do business internationally on your own terms. As a calling service, it allows you to make calls from almost any phone in 46 countries. No plastic required and no hotel surcharges to pay. In fact, you'll find our rates are very competitive.

But as a business service, it offers far more. For example, with our Message Forwarding facility you can take time zones in your stride. You simply record your message at a time that suits you, and it's sent at a time that suits the person you want to speak to.

So with WorldPlus Service your time is your own, whoever you have to talk to.

For more information, FREEPHONE 0800 83 84 85 in the UK. or call (0-40) 65 06 41 44 in Germany; from other countries, call 44 71 925 8416 reversing the charges, or fax 44 71 925 8360.

MANIAL PERIMENTS

# Israel Hints at Harsh Treatment for Hamas Suspects

By Barton Gellman

JERUSALEM — The Israeli government is leaking details of a wide-ranging manhunt for Islamic militants in the occupied territories, suggesting that the dozens arrested thus far are in for especially rough treatment by security and intelligence services.

The operation was described in warlike rhetoric by cabinet members as an attempt to destroy the foundations of Hamas, which claimed responsibility for three traumatic terror attacks inside Israel this month

Hamas, the Islamic Resistance Movement, vowed in a leaflet to "retaliate severely," and security services braced for attempts to disrupt the signing of a peace treaty with Jordan on Wednesday and President Bill Clinton's scheduled visit to Jerusalem on Thursday.

Government spokesmen denied reports by a British newspaper and The Associated Press that there were "kill on against an enemy who killed 23 people include.

New Consortium

Continued from Page 1

two possible routes for expansion. One is interactive television and similar futuristic terms along the information superhighway - whose constantly receding technological promise has begun to earn it the industry nickname of the "superhypeway." The other is to enter the heavily defended territory of the local phone companies.

The first skirmish is coming. The reason the consortium was announced now is that Friday is the deadline for telephone consortia to announce themselves and register for the Dec. 5 auction by the Federal Communications Commission of licenses to operate the next generation of pocket phones, known as personal communications systems. AT&T acquired McCaw

Cellular Communications and will bid for markets where it does not have franchises, and four regional Bell companies will also be bidding against the new Sprint consortium.

An almost frantic search for partners has been the outstanding feature of the telecommunications industry both here and abroad for the past year, and some deals announced with great fanfare have later been abandoned when government regulations changed or partners got a closer look at each other's books.

This one offers more breadth than many of the previous ones. Mr. Malone said that the cash flow from the telephone service would help finance the investment that many heavily indebted cable systems need to up-grade their systems and join the national network.

# The Only Reason to Leave Your Desk

Imagine a machine that does it all faxing, copying and printing. Imagine the Ricoh MV715. Despite its modest dimensions this machine combines the most important telecommunication and office

automation functions, all in one single unit. In fact, with the Ricoh MV715 almost the only reason to leave your desk is for a well-deserved cup of coffee after a job well done.

# **French Executives** Play Down Impact Of Corruption Cases

By Joseph Fitchett

PARIS - As corruption scandals rise around them. French businessmen accused of paying bribes appear less panic-stricken than the politicians who are alleged to have taken bribes and who now are claiming that France is going down. the tubes Italian-style.

Business in France has been hit hard. Foreign investors are putting French deals on hold because of doubts about who will be in charge tomorrow.

But while visibly shaken, industrialists still contend that France's crisis about unethical business-government relations is comparable, not to Italy, but to the United States 30 years ago during the Nixon administration when illegal political payments came under tough scrutiny and tighter regulations were put into effect.

That probably underrates the disruptive potential of the revelations about collusion in France between business and politics. The scandal is reaching higher and wider than any previous episode in postwar French history. But the business community insists on the point that corruption in France is a relatively recent affliction, still confined mainly to companies dealing in big public con-

"Italy had a state that was totally corrupt, so everything was corrupt, but corruption only became a problem here in the '80s, and we are seeing a brutal reminder that France

still has gendarmes," said an international executive in a major French corporation.

What is liable to be exposed

in France, other executives said, mainly implicates companies doing government business, not the bulk of France's companies, which compete to sell massmarket products and services. None of the current uproar con-cerns bribes and kickbacks for

The political payoffs have come mainly from French companies seeking contracts and subsidies decided by cabinet ministers and their key aides, who took money either to finance their political parties or, in some cases, for their pockets.

A second pattern of corruption involves local governments, which now control fat budgets due to administrative decentralization. France's two leading water companies, both privately held, are suspected of systematic payoffs to local political leaders for lucrative contracts at the cost of higher water prices for consumers.

Even as industrialists insist privately on the limits of corruption, they are reticent about their own defense because business is so often seen in France as a system for bosses to exploit workers - a sulfurons image liable to revive.

There have been few expressions of sympathy as the police have summarily hauled in leading French corporate heads for interrogation and threatened then with being locked up unless they cooperate.

Pierre Gascon, first secretary of the city of Grenoble, France, going through security on his arrival in court Tuesday for a hearing on corruption charges against the Grenoble mayor and former communications minister, Alain Carignon.

The threat is credible since. in France, chief executive offi- the investigating magistrates cers are responsible for every action of their companies, and there are no provisions for habeas corpus to challenge deten-

"We used to worry in France about whether there was justice for the poor; now we wonder if there is justice for the rich, said a defense lawyer.

In this climate, several chief executives, including Jean-Lou-is Beffa, head of St. Gobain, pressure to make payoffs.

Some businessmen betray reportedly have started helping quiet satisfaction at seeing policompile dossiers full of bribery leads that will keep French ticians brought to book. In 1990, the French Parliament courts busy during the current voted an amnesty for any mempresidential campaign and perber who had received illegal aps for months afterwards payments but left the bribers While they worry about what

SARAJEVO, Bosnia-Herzej govina — Defiant Bosnian soldiers refused Tuesday to obey
UN demands that they leave a
demilitarized zone, and they declined to take blame for a 45minute gun battle with French peacekeepers in the zone.

The shoot-out Monday, followed by Bosnian demands for the dismissal of the peacekeep ing force's commander, brought lowest level ever.

Major Says He Was Target of a Blackmail Attempt draw or revise a report critical it a "blackmail attempt" worthy from two Conservative mem-

By Fred Barbash

LONDON - Prime Minister John Major told a stunned Parliament on Tuesday that he was the target of a political blackmail scheme a month ago engineered by the owner of Harrods department store.

He said that Mohamed al Fayed, the chairman of Harrods Ltd., had attempted through an intermediary to obtain an appointment to discuss getting the government to with-

of his company.

During the conversation, Mr. Major said, the intermediary told him that Mr. Fayed was "in possession of" allegations of wrongdoing within Mr. Major's Conservative Party and "was contemplating passing them on Mr. Major, who did not name

#### BUILDING PEACE AND DEVELOPMENT 1994

**Boutros Boutros-Ghali**, Secretary-General of the United Nations

The Secretary-General, in this annual report on the work of the Organization, focuses on the centrality of development in the efforts to build peace. The report emphasizes that development has long been a major component of United Nations work. But in an era which has witnessed genocide, ethnic cleansing and other crimes against humanity, the Secretary-General asserts that the Organization is paying increasing attention to economic and social development, which is the foundation for peace.

**Building Peace and Development** 1994 provides the reader with a comprehensive overview of the activities of the Organization, including peace-keeping operations, over the past year. As such, it is an invaluable reference for any person interested in the United Nations or the global issues in which it is so deeply involved.

Patek Philippe has been known as the finest watch in the world. The reason is very simple. It is made differently. It is made using skills and techniques that others have lost or forgotten. It is made with attention to detail very few people would notice. It is made, we have to admit, with a total disregard for time. If

a particular Patek Philippe movement requires four years of continuous work to bring to absolute perfection. we will take four years. The result will be a watch that is unlike any other. A watch that conveys quality from first glance and first touch. A watch with a distinction: generation after generation it has been worn, loved and collected by those who are very difficult to please: those who will only accept the best. For the day that vou take delivery of your Patek Philippe, you will have acquired the best. Your watch will be a masterpiece, quietly reflecting your own values. A watch that was made to be treasured.

Paick Philippe S.A. 41, rue du Bhône - 1211 Geneva 3 - Switzerland

#### Back to the Bosnia Plan

clarifying. Previously the Europeans, including Russia, with peacekeepers on the ground had said they would not support lifting the arms embargo on Bosnia's Muslim-led government: too incendiary, too dangerous to their own forces. Now President Bill Clinton has made clear that the United States will not do it on its own.

Mr. Clinton will ask at the United Nations, he said, as he had promised Congress. But when the United Nations says "no," as it surely will, he will come back and tell Congress that a unilateral lift is a mistake and a bad precedent. Congress could overrule him only if it were ready, which it is not, to have the United States take over Bosnia.

Let there be no false regrets that the United States is missing a last chance to help the under-armed Muslims to even the odds against Serbian aggressors. There may be a moral debt, but the

political logic is lacking.
On their own, the Muslims have already determined that slipping the embargo now would merely embolden the well-armed Bosnian Serbs to hit them hard before they could materially repair their military weakness.

The fact is that on the basis of many past decisions, none of which can now be taken back. American choices are

The latest Balkan word is dismal but limited. Unless Washington is prepared to see the war run free indefinitely, the single option is to support the plan for partitioning Bosnia drawn up by the "contact group" of the United States, Britain, France, Germany and Russia. It is a sad plan that condones much "ethnic cleansing" and forcible border changing. But the Muslim government, to which most American sympathies and obliga-tions flow, swallowed it all the same.

By keeping open the notion of arms relief, the American government encouraged lingering Bosnian illusions of a military deliverance. In this way it undercut the UN plan. By stepping back from the notion, Washington finally and more firmly supports the plan, of which, of course, it is a signatory.

Serbia's tightening boycott of the so far defiant Bosnian Serbs becomes the leading instrument of pressure, through the long winter now setting in, to induce them to respect the international peace plan. Serious NATO air strikes to curb Bosnian Serb violations become a necessary companion instrument. The peacekeepers have resisted such strikes up to now, fearing Bosnian Serb retaliation against themselves. An American sharing of the risks of peacekeeping would be the best answer that Washington could give its allies - and the Muslims.

- THE WASHINGTON POST.

## The Long Haul in Haiti

tions officials are pressing the United States to disarm the thugs — allies or employees of the ousted military regime — who continue to make trouble. But the menace in Haiti is mostly handguns, and the idea of house-to-house sweeps to try to seize them doesn't seem very promising. The Clinton administration is surely right to say that security has to depend essentially on political stability.

The United Nations is uneasy because the United States intends to hand over to it, sometime shortly after the turn of the year, the job of supervising the further development of democracy in Haiti. By then, the United Nations hopes, the level of violence will have fallen and political intimidation will have ceased. Whether that happens will depend on what else is happening.

In a country where malnutrition is endemic and the unemployment rate appears to be around 70 percent, it doesn't take any very subtle analysis to suggest that economic growth is going to be crucial. Some growth will now take place simply because people are no longer living under a predatory regime whose soldiers stole with impunity. There are already signs of increasing activity in local markets. Foreign aid will be necessary, and more than a bil- to help themselves. lion dollars is now promised over the

What will happen in Haiti when the next five years. But there is one more American troops go home? United Nathanis than the haiti badly needs, and that is access to the American market.

The United States puts a lot of barriers in the way of the kind of products that a low-wage, resource-poor country can produce. Under the Caribbean Basin Initiative, Haiti will get some modest but useful breaks on the usual tariffs and import quotas. But the Aristide government has reportedly raised the question of wider trade benefits. Trade, over the long haul, is a much more reliable creator of jobs and prosperity than foreign aid.

The American involvement in Haiti is only for the short term, in the sense that President Bill Clinton wants to end the occupation and withdraw most of the American troops within a few months. But this relationship is also for the very long term. It was the flow of destitute refugees that forced the United States to act in the first place, and that flow will resume immediately if democracy fails and the hope of prosperity fades.

The American troops have created an opportunity for Haitians to end their country's long tradition of abominable government. While it prepares to bring its troops home, the United States needs to keep working to strengthen that opportunity — especially through invest-ment and trade that encourage Haitians

- THE WASHINGTON POST.

# Who's for Budget Debate?

whip, raised political hypocrisy to new levels last weekend when, citing a leaked White House memo, he accused Democrats of threatening Social Security and Medicare. This from the author of a "Contract With America" which, by pledging to whack a trillion dollars out of the federal budget, would virtually guarantee huge cuts in entitlements. The decision by the memo's author, Budget Director Alice Rivlin, to put budget options in writing during election season may not have been the brightest political move. But at least she, unlike Mr. Gingrich, tried honestly to confront the nation's fiscal problems.

The federal deficit is expected to rise from about \$170 billion next year to about \$235 billion by the end of the decade. That would keep the deficit at about 2.5 percent of gross national product, which many economists do not find worrisome. The deficit problem does become threatening after 2010, when it should begin to rise to about 6 percent of GNP. Even this level would not hurt the economy if the extra federal borrowing were devoted to investments like schools. telecommunications and transportation. But Mrs. Rivlin fears that the borrowing will siphon money away from capital markets, and thereby from private investment, in order to pay for what she fears would be congressional frivolities. She favors budget surpluses so that U.S. saving rises closer to the rates of other industrialized countries.

Her memo outlines, without recommendations, dozens of ways to reduce the long-term deficit. For example, it estimates the budgetary savings of limiting cost-of-living allowances for Social Security beneficiaries, cutting tax deductions for mortgage interest on second homes,

Newt Gingrich, the House Republican taxing capital gains (profit on investments) of deceased investors, imposing a national sales tax, eliminating tax deductions for state and local taxes. Her memo also outlines ways to cut taxes on middleclass families. Mr. Gingrich did not emphasize those options.

Mrs. Rivlin knew that such ideas were incendiary, so she retrieved copies of the memo she distributed at a White House gathering. Apparently, someone --- a senior administration official, according to William Kristol of the Project for the Republican Future - leaked a draft copy to Republicans. Mr. Gingrich pounced.

Mrs. Rivlin may exaggerate the benefit of deficit cutting — especially since Congress would probably achieve the goal by eviscerating job retraining, research and development, infrastructure and other valuable investment. But when government and business are accused of economic myopia, she deserves credit for taking the long view. Her options include modest ways to control the rate of growth of entitlements; she outlines no bloodletting.

As the Social Security Trust Fund runs dry and health expenditures of an aging population soar, Congress will have to cut spending or raise taxes sooner or later. Made sooner, the cuts need hammer no one hard. Made later, they will hurt.
The political fallout of Mr. Gingrich's

opportunistic barrage is that he and a defensive President Bill Clinton have now launched tit-for-tat promises to voters that they would, for example, unalterably oppose touching Social Security or Medicare, even for the rich. By ruling huge chunks of the budget undiscussable — and ridiculing a public official who dared face unpleasant facts - Washington threatens to smother serious debate. — THE NEW YORK TIMES.

# A Bomb in Tel Aviv Meant to Blast Arafat and Peace

WASHINGTON — For one horrifying moment last Wednesday, a fanatic with a bomb turned downtown Tel Aviv into Beirut. Now the danger is that Israel and the Pales-tinians may turn their mutual

homeland into Lebanon. Israel intends to seal off the Gaza Strip and the occupied West Bank indefinitely and demands that Yasser Arafat use his police force to hunt down members of the Islamic Resistance Movement, or Hamas, which was responsible for three brutal attacks on Israelis in recent weeks. If he fails to do so, Prime Minister Yitzhak Rabin will use the army to do it for him.

The goal of the movement is to shatter the fragile peace process and ultimately to eclipse Mr. Arafat's Palestine Liberation Organization. A military crackdown may well serve its purpose if the move further inBy Glenn Frankel

flames a Palestinian population already disappointed in the pro-cess and in Mr. Arafat. For the Palestinian leader, ev-

ery option is bad. If he accedes to Israel's demands, he will be viewed as a traitor by some Palestinians and branded as an Israeli pupper, as were the Christian militia leaders who sided with Israel in southern Lebanon. If he fails to do so, he risks losing his Israeli peace partner. Mr. Rabin's closure of the territories to 65.000 Palestinian workers is certain to aggravate economic hardship, croding Mr. Arafat's control.

There are crucial differences between Israel and Lebanon, but one frightening similarity looms: In both countries, things began to fall apart when the hard men on all sides wrested control from moderates. In Lebanon, where they succeeded, 20 years of war

ensued. In Israel, the struggle between moderate and radical, between fragile peace and war with-

out end, continues. With the signing of the Israel-PLO accord on the White House lawn 13 months ago, moderates in both communities asserted control, consigning radicals to the sidelines. Israelis were tired of war and of the continuing military occupation of another people; the human and financial costs of both are staggeringly high. Palestinians, too, were prepared to put the conflict behind them if it meant an end to their suffering and humiliation and the prospect of independence.

But it only takes a few bombs and bullets for radicals to reassert their claims. After a Jewish settler's attack on a Hebron mosque in February left at least 30 Palestinians dead. Mr. Rabin cracked down on a fledgling net-work of Jewish extremists by using some of the same ruthless tactics his security forces once reserved for Palestinians.

It is harder for the Palestinian majority to assert itself. It has no firmly entrenched democratic institutions and no elected leader. Mr. Arafat's performance has inspired little trust. Promised prosperity has not arrived. The Palestinian mainstream may decide that the hard road to peace is not worth the trip.

Hamas is well-placed to exploit this. It was founded in December 1987 at the beginning of the Palestinian intifada by a Gaza sheikh. Ahmed Yassin and a group of acolytes — mostly middle-class clerics and professional men. Although Hamas's covenant called for Israel's destruction. Sheikh Yassin himself spoke of ending the occupation, not of reconquering the

Holy Land or evicting the Jews. Yet if Sheikh Yassin lacked radical fervor, he never lacked for followers. Small bands of young men flocked to Hamas's banner and committed kidnappings and killings in its name. Sheikh Yassin hunself allegedly masterminded the abduction and killing of two soldiers. But after his imprisonment in 1989, Hamas carried on, recruiting followers among Palestinians imprisoned for the intifada and among younger worshipers at mosques.

ه څخه د د د د

The military wing of Hamas is tiny - perhaps 50 to 100 members, according to Israeli intelligence estimates. The real strength of Hamas is its support among some Palestinians: It is home-grown and finely attuned to the moods of its people. Its leaders largely desisted from terrorist attacks within Israel over the past year because they sensed a lack of popular support for such moves. Now they sense the public mood is shifting.

It may be, as some Palestinians suggest, that there is a split within Hamas between leaders who want to operate as an above-ground political party in the new Palestinian autonomous zone and militants who want literally to blow up the peace process.

But the ultimate goal remains supplanting Mr. Arafat and the PLO as the main Palestinian national movement. In this sense, the Tel Aviv bus bombing was actually aimed at Mr. Arafat. A bloody reckoning among Palestinians seems inevitable.

Israelis are in shock. They know there is no going back to the days of occupation in Gaza. But they are angry that the Israel-PLO accord has not produced security. Many on the right argue that the deal has increased terrorism by inciting the militants while replacing vigilant Israeli enforcers in Gaza with permissive PLO policemen.

Tel Aviv is the capital of the new Israel, the showcase for its affluence and Americanized dreams. Its residents survived Iraqi missiles and now they want to get on with living the good life. To blow up a commuter bus in the center of Tel Aviv is to strike at the heart of those who seek accommodation. It returns the conflict to its original terms: winner takes all.

The Washington Post.

# Some Travel Suggestions for Bill Clinton in Syria

NEW YORK — When President Bill Clinton visits President Hafez Assad in Damascus. I hope it is not one of those quick in-and-out trips. Mr. Clinton should stay a couple of days. There are a lot of interesting

things to be seen in Syria, and fun to be had. For instance, it won't take him but a few minutes' lime time to visit the downtown office of Hamas. He should ask for Musa Abu Marzuk, who is one of the top three officials of Hamas worldwide.

They can chat about the Hamas leader's many years of residence in Virginia prepar-ing. Other suggested topics: the Hamas bombing of the bus in Tel Aviv, and how the Damascus branch keeps in touch with the Hamas bomb units in Gaza, Israel and the United States and trades tips and specialists.

Then, how about an editorial board meeting at Radio Al-Quds? Over coffee, they can tell him how with the permission of his host's regime they broadcast ecstatic praise of the Tel Aviv massacre.

From there, President Clinton could visit Mr. Assad's Military Interrogation branch to inspect Saha al-Ta'dhib, probably the best-equipped suite of torture chambers in the Mideast. The president could see Al-Khursi al-Almani, or the German chair. Knives cut into the victim's flesh as the chair is rotated. He might ask for al-abd al-aswad. or the black slave, in which a prisoner is strapped down while a heated metal skewer is thrust into his anus. Now, off to visit the Palestinian terror-

ists. For decades, Syria has been haven and training ground for about a dozen of these By A. M. Rosenthal

groups. Without Mr. Clinton's host, Mideast terrorism could not have so flourished. That is why Syria is on the U.S. list of terrorist nations.

Mr. Clinton might enjoy Ahmed Jebril, chief of the Popular Front for the Liberation of Palestine — General Command. Some Western intelligence agents are sure he planned the destruction of Pan Am 103. He could chat about what Mr. Assad knows before and after terrorist operations. He is a Syrian army officer, and part of Syrian intelligence, a branch of Mr. Assad's presidency.

Mr. Jebril's office is in the Al-Mazra'a section, not far from the Damascus office of Islamic Jihad. Then the Clinton, Jebril and Jihad parties could all drive to the four PFLP-GC bases in the Damascus area, including the Ruwad air base and the heavy

How about a bit of adventure snooping around about Alois Brunner? He was Adolf Eichmann's deputy slaughterer. He escaped, to prosper year after year in Syria. President Assad refers to him as Alois Who? He may be dead by now, but President Clinton could check around on Haddad Street, where Alois Brunner lived investigative president on the job.

Side trip: Mr. Assad drives Mr. Clinton to Hama, in the Orentes River valley. Not much to see there since Mr. Assad had about 20,000 Syrians massacred because some raised opposition to his rule. Still, there is a

great parking lot where their homes were bulldozed. Mr. Clinton could have a tailgate kebab with his host.

No visit to Syria is complete without a visit to beautiful Bekaa. Actually it is in Lebanon, but given the Syrian colonization of Lebanon and occupation of the Bekaa that is a quibble. Mr. Clinton could see the pretty poppy fields. He might stop at Syrian army posts, for details of the millions of dollars the Syrian army rakes in turning poppies into heroin.

Mr. Clinton could relax. His presence is

not needed to talk Mr. Assad into a peace treaty. Israel offers a world-class bargain: for a treaty. Syria gets the commanding heights of Golan. Mr. Assad will decide in his own interests and time. In Washington, the Center for Strategic

Policy released a worried study by former high-ranking U.S. officials and retired generals warning that putting any American peacekeeping forces on the Golan would endanger the troops and undermine Israel's standing as a self-reliant American ally. But for Syria, the Clinton visit is a deli-

cious American ennoblement. Mr. Assad will respond with some gesture. But the terrorist list is dead, politically and morally. Before he leaves Damascus, Mr. Clinton should return for another look at Saha al-Ta'dhib, the garden of tortures. He could think about it as he flies home. Maybe it will help him face the question he keeps raising himself, and which is poisoning his presi-

dency: Who is Bill Clinton? The New York Times.

# Japan Isn't Ready Yet for a Permanent Seat on the Security Council

WASHINGTON — In an unusually direct speech to the By Robert A. Manning and James J. Przystup tilities might occur. Its quaint no-Over the years, Japan has dis-

General Assembly on Sept. 27. Foreign Minister Yohei Kono pan's goal of a permanent seat on the LIN Secretary launched a drive to achieve Jareinforced by Emperor Akihito's recent European visit.

Japan's interest in such status should be welcomed by the international community in principle. But in practice Japan is not yet prepared to assume the full responsibilities of global leadership that a permanent seat entails.

Japan should not be allowed to treat the Security Council seat as just one more leveraged buyout. So far, Tokyo's chief argument is that by contributing 12.5 percent of the UN budget it has bought an entitlement.

With the veto that a permanent Security Council seat permits comes real responsibility. Tokyo wants the seat with a caveat that it need not send Japanese forces into situations where armed hos-

tion that one can simply purchase great power status reflects a lingering mentality of being in the world but not of the world.

The issues are fundamentally poworld but not of the world.

Japan must realize that it cannot be allowed to simply finance the risk of life by others in the service of international peace and security. If Japan wants to make decisions that send the youth of other nations into harm's way, it must be prepared to risk its own blood as well as its treasure.

The issue of a permanent seat raises fundamental questions in Japan regarding the right of collective self-defense and the deployment of military forces outside Japan. Article 9 of its constitution, often cited as the reason for Japan's inability to partake in such activities, proscribes neither. It merely renounces war as a sovereign right, and the threat or use of force as a means of settling international disputes. played a flexible interpretation of its constitution when necessary.

Japan is an emerging major power with major stakes in the system. No country has benefited more from the international economic and political system that took shape after World War II. The open trade system shaped by GATT, particularly access to the U.S. market, and the security alliance with America have played no small role in Japan's impressive postwar success.

Only very slowly is the realization taking hold in Japan that it must assume the burdens as well as the benefits of this system.

After the Gulf crisis, Japan did write a \$13 billion check to the U.S. Treasury and even sent minesweepers to the Gulf to assist in postwar cleanup operations. Next, the Diet adopted a peacekeeping

government to send Self-Defense Force engineers to Cambodia for "nonmilitary" activities. Now nonmilitary deployments are planned for Rwanda and Zaire. Socialist Prime Minister Tomii-

operations bill that allowed the

chi Murayama has reversed his old opposition to the very existence of the Self-Defense Forces. Should Japan truly wish a permanent seat, its political leadership must be prepared to take the next steps and lead the Japanese people to accept the whole spectrum of international responsibilities incumbent upon a permanent member of the Security Council. These responsibilities go far

beyond responding to peacekeeping requests. As the world's second-largest economy, Japan is a key factor in global economic well-being. Yet it has been reluctant to fully open its markets to competing economies. And not only has it shunned world economic leadership, it virtually hid under the table during the diffied States and Europe slugged it out. Only after the deal was cut did Japan uneasily agree to a

requires of Japan and its political leadership is a new maturity - a willingness to bear international burdens however onerous. If one looks back over the course of this century, it is clear that the international system is not self-sustaining. It works only when leading powers with major stakes in the system assume responsibility for its effective functioning.

ternational Herald Tribune.

#### So America and Japan Can't Merge, but Neither Should They Divorce By Alvin and Heidi Toffler

TOKYO — Because of their wish to reach consensus before a decision, Japanese are fast at executing a project but slow at reaching agreement. Americans can make a deal quickly but take longer to implement it.

Many Japanese complain of feeling constrained by group pres-sures. Americans would be delighted to learn how Japan manages to keep its streets so safe that young women can walk almost anywhere at midnight without concern for their personal security.

The explanation lies not in the number of Japan's cops, but precisely in the kinds of social pressures that Japanese place on one another. A little less in Japan and a little more in America might make both places better.

It is often argued that Japanese lack an entrepreneurial culture and are not innovative enough. Yet tens of thousands of Japanese would be excellent entrepreneurs if they were not embedded in an over-homogenized, centralized, over-bureaucratized Japan.

If the Japanese economy were increasingly deregulated, making it more compatible with that of the United States, both parts of Jamerica — as we call a hypothetical merger of the two countries might experience a great burst of innovation. Americans would learn to raise the quality of their products. Japanese would improve their services. Americans would do better at manufacturing chips, Japanese at writing software.

nese have a lot to learn from one another, and a marriage might improve both cultures. One of the major consequences

In short, Americans and Japa-

This is the second of two articles. of Jamerican wedding bells would be a change in the strategic relationship of Japan and the United States to the rest of the world.

The roots of power in the global system are a combination of economic strength, military strength and informational strength or knowledge, especially in the form of science, technology and popular culture. If one combined the economic strength of Japan and the United States with America's military potential, plus its enormous informational power, the resulting alliance could dominate much of the earth for decades, even perhaps generations to come.

The new merged entity could impose a Pax Jamerica on much of the rest of the planet.

There are, in short, many apparent reasons for the two countries to go to the marriage altar. But is such a merger remotely possible? Yes, if the two nations were to be thrown together by a renewed threat to their survival from China or Russia, or by some other combination challenging their joint survival.

But there are three reasons to believe that Jamerica will remain a myth rather than a reality.

First, the very contrasts between the cultures stand in the way, not to mention a hidden layer of racism and a not so hidden nationalism. Americans are, unfortunately, not ready to think of the Japanese as their equals, after half a century of mentoring Japan. And Japan is beyond the point of acquiescing in any marriage based on inequality.

Second, if Asian nations still harbor suspicions about Japanese intentions, half a century after occupation by Japanese troops, what would their reaction be to a Jamerican merger? Asians would immediately start reshuffling their alliances to create a counterbalancing coalition, armed with sufficient nuclear and other weapons of mass destruction to protect themselves against being pushed around by the new duopoly.

Possible permutations could destabilize Asia for years to come and destroy or distort the entire region's economic development. Except under extreme conditions, it is unlikely that either American or Japanese leaders would be willing to risk the consequences.

But, most important of all, history has already passed Jamerica by. Jamerica is 50 years too late. If General Douglas MacArthur had incorporated Japan into the United States in 1945, there would have been a Jamerica. He didn't.

In the early postwar era, as throughout the age of Second Wave industrialism, big countries with big populations and big economies had enormous advantages in the world economy. But what economists call "economies of scale" are diminishing with the rise of Third Wave, knowledgebased economies. Small states like Singapore or Taiwan, relying on brain rather than brawn, outperform many of the giants.

Nor does sheer size necessarily confer military power. Indeed, the future may lie not

with Jamerica but with Kyucon, a merger between Kyushu and Silicon Valley, or between other regions linked with one another across national boundaries. As Kenichi Ohmae, the Japa-

nese management guru, and we have long argued, regions, some of them binational or even multi-national, may well prove to be more important centers of economic and cultural activity than nations, even super-nations.

The real threat to the world, is not that America and Japan will merge, despite all the seeming advantages, but that they will split. They may be driven apart by irresponsible nationalist demagogues in both countries, waving their racist and/or protectionist flags.
Dangerous though it may prove

to both, divorce is more likely than

marriage — and Jamerica will remain a fascinating might-have

been future of the past.

IN OUR PAGES: 100, 75 AND 50 YEARS AGO

1894: Alleged Jump

POUGHKEEPSIE, N.Y. - It has remained for Captain Montague Martin, late of the English army, to snatch from the brow of New York's own "Steve" Brodie his crown of fame as a bridge jumper. The doughty Englishman, upon his own statement, jumped from the 212 foot Poughkeepsie Bridge at a quarter to seven this evening [Oct. 13]. Alleged bridge jumpers are very common here. Investigation invariably fails to bear out boastful assertions. The citizens, therefore, are chary about accepting such statements without ocular demonstration.

1919: Fashion Statement

ROME - The Pope, receiving a deputation of ladies yesterday [Oct. 23], spoke of the new rights and duties of women, and condemned certain modes of dress now prevalent, which, he urged, are an offence against morality.

1944: Naval Victory

WASHINGTON - From our New York edition: President Roosevelt jubilantly revealed late today [Oct. 25] that America's Pacific Fleet has 'defeated, not only damaged and routed" the Japanese Navy in the sens off the Philippine Islands. The President delivered the announcement at a forty-five second press confer-ence held immediately after he had received word from Admiral William P. Halsey jr., of the great victory. The scope of the triumph - and the fact that it may go far toward shortening the war in the Pacific — was emphasized by the remark of Admiral Ernest J. King. commander in chief of the United States Fleet, that he thought Japan had sent its entire navy into the

three pronged attack.

genes matter? But what about invidious theories of heredity, especially those that promote distinctions among racial and ethnic groups? You will hear a lot, soon, about "dysgeneto the terms of the second of sis," a theory that dullards, spurred by misguided social poli-cies, are degrading the American gene pool by outbreeding the more intelligent folks.

intelligent lolks.

This supposed threat is among those discussed in "The Bell Curve," a new study of intelligent lolks. Curve," a new study of intengence by Charles Murray and Richard J. Herrnstein. They note, that mass IQ testing establishes group differences in "average" intelligence, some of

them quite large.
Mr. Herrnstein, a respected Harvard psychologist, died a cou-ple of months ago. As it happens, I The second of th knew him slightly. His provocative writings on the social and economic implications of IQ heritability 20 years ago brought him much abuse from strident ignoramuses who take it as their mission to stigmatize arguments they dislike (or don't understand) as "racist."

Mr. Herrnstein was no racist. He did believe that the best studies of heredity (usually of identical twins reared separately) indicated a nature-nurture ratio in the development of cognitive intelligence of about 80-20. And if IQ is so largely heritable, he argued, the egalitarian policies widely favored by liberals would tend to make America less equal and more rigidly stratified.

Mr. Herrnstein's syllogism was simple: If genetic endowment is the major determinant of brainpower, and if brainpower makes most of the difference in economic and social fortune, then the more theoretically equal we try to be, the less equal in practice we are likely to become. The argument was plausible; it may matter even more in the dawning information and service economy than in the industrial economy.

When I wrote a couple of critical but friendly pieces about Mr. Herrnstein's theories in the Wash-

WASHINGTON — In its less ington Star, of which I was an invidious forms, heredity is editor, I soon heard from him. He among the more fascinating of clearly longed for a sympathetic hearing. We had a couple of long lunches. Then the issue faded. I never saw him again.

What is surprising about the commotion over "The Bell Curve" is how quickly we forget that theories of dysgenesis have a long history — a history of which Mr. Herrnstein's Harvard colleague Stephen Jay Gould makes merry sport in his book "The Mismea-sure of Man."

The development of mass IQ testing, especially of World War I recruits, produced some bizarre results. It was concluded, for instance, that the average "mental age" of Americans at that time was 13, barely above the level then deemed "moronic." Somehow this race of morons managed to thrive and to win a second world war, but not before the grim tidings about "average" intelligence spurred eugenics crusades (and sterilization laws) and legislation to shut out defective immigrant stocks.

It is a great irony that the "eth-

eties over dysgenesis were fore-shadowed in the 1920s. Widespread intelligence testing, followed by various eugenic and vertised as "curtailing the reprothe elimination of an enormous were only signs of despair. was in 1923.

Kamikaze attacks

Looking back, one can consider amount of crime, pauperism and industrial inefficiency." That various factors in the calculus of as in 1923.

U.S. policy toward Japan during the In short, the most meager his-final phase of the war: punishment torical perspective on the "Bell for the perfidy at Pearl Harbor and Curve" controversy would incline atrocities against prisoners of war; a us to be leery when glib inferences restoration of American dominance about national policy are drawn in the Pacific region; geopolitical from IQ tests. IQ data have been factors involving China and the

But did, in fact, the atomic bombing of Hiroshima and Nagasaki save but kept the emperor. That is the hazard of group ste-reotypes, whether racial, ethnic, ing invasion unnecessary? Since aunese conquests could be given up, but preservation of the emperor's Americans are overeager, some- status, which symbolized the contiwhen it reflects 19th century sci- peace moves became urgent and explicit as doubts arose about Stalin's without loss of face. intentions. The emperor himself 2. It allowed the

telegram from Foreign Minister Shi-genori Togo to Ambassador Sato in Moscow, dated July 12, 1945, mentions the emperor's concern over the "daily calamities and sacrifices of

that if the Japanese were reassured on the preservation of the emperor's status, the war would have ended in July. It is not clear why there should have been - if indeed there was any serious consideration of plans to invade the Japanese homelands.

In the event, the atomic bombs were pressed into service. The proposal of the Nobel laureate James Franck (and his committee) that the power of the bombs should be demonstrated in a desert or barren island instead of dropping them over Japanese cities was rejected.

And so Hiroshima and Nagasaki were consumed in the blinding flashes of flame and blast on Aug. 6 and 9. Stalin declared war on Aug. 8, Japan surrendered on Aug. 14 —

DWARKA NATH CHATTERJEE. Luxembourg.

I worked on the atomic bomb at Los Alamos beginning in 1944. Later, as a dealer in Japanese art, I came into close contact with Japanese artists and intellectuals. These thoughtful and cultured Japanese invariably made the following points regarding the atomic bomb's use:

1. It allowed Japan to surrender 2. It allowed the preservation of

Japanese institutions and, in particular, of the emperor's status. 3. It saved an enormous number

of Japanese lives that would have been lost had a full-scale invasion taken place. 4. Despite the recognition that the war was lost, the fanaticism of the army would never have permitted

surrender; even after the atomic bombs it was touch-and-go. DAN E. MAYERS. Wadhurst, England.

I wonder whether there has ever been a public debate that sailed so

far from the central issues. The United States did not start the war against Japan by bombing Hiroshima and Nagasaki. First, I would remind the revisionists, there was Pearl Harbor. And whether we are talking about a potential of 30,000 or 1 million casualties in an invasion of Japan is absolutely immaterial to the men who would have been on the list. As an infantry officer in training for that invasion, guess what I think — and what my children and grandchildren think about President Truman's decision.

> LAWRENCE ELLIOTT. Luxembourg.

Taking any human life by whatever means is "wrong," but it has to be admitted that uniformed soldiers have accepted in advance the risk as well as the goal of killing one another. But how can the killings of innocent civilians ever be "right"? I think the only conclusion possible to the Smithsonian debate is obvious: It is the military killing of civilians that has to be condemned, everywhere.

LESLIE SCHENK. Chevilly-Larue, France.

## Dignity and Burt Lancaster: Many Times a Great Actor

By Tom Shales

caster specialized in proud, stub-born, independent characters on

#### MEANWHILE

the screen and, from all indications, it was typecasting. He was an actor for whom standing tall was no stretch.

Perhaps the chief difference between today's movie stars and yesterday's is that yesterday's seemed larger than life off the screen as well as on it. When Burt Lancas-ter's death was announced in Los Angeles recently, it was another unhappy milestone in the long, slow passing of an era.

And yet Mr. Lancaster tran-scended eras as he transcended movie genres. He started making movies in 1946, when the studio system was beginning to wane, and did not stop until bad health forced him to in 1991. To projects lofty or lowly, he always brought an incomparable authority, and he

an incomparable authority, and he imbued each character he played with his own visceral dignity.

Tight of lip, clenched of jaw, clipped of phrase, Mr. Lancaster seemed a towering figure even when playing the malignant or the downtrodden. More than perhaps any other actor of his time, he showed a willingness to be unlovable on the screen, playing nearly as many heels as heroes. As J. J. Hunsecker, the ruthless gossip col-Hunsecker, the ruthless gossip col-umnist of "Sweet Smell of Suc-cess," Mr. Lancaster was bitterly unforgettable. When Mr. Hun-secker's toadying flunky, played by Tony Curtis, falls from grace late in the film, Mr. Lancaster says menacingly: "You're dead, son. Go bury yourself."

His most famous role, of course,

was as the firm but fair-minded sergeant in "From Here to Eterniwhere he tumbled through what has become a quintessentially Hollywood love scene: Mr. Lancaster and his leading lady, Deborah Kerr, stripping down to bathing suits and rolling about in the surf.

Burt Lancaster was a Hollywood liberal before it was fashionable (and later, cliched) to be one. The movies of his that stand out most dramatically are those with a social consciousness: "Elmer Gantry," for which he won an Oscar playing a cynical evangelist;

WASHINGTON — Some of the strong men really were strong, some of the tough guys really were tough, some of the wise "Seven Days in May," in which he played the kind of megalomaniacal military man only an Oliver North could admire.

Even when the characters he played were contemptible, they were charismatic; they were in-

triguingly loathsome.

His range and versatility were remarkable. With Nick Cravat, his former pariner in a vaudeville acrobatic act, he swashbuckled blazingly across the screen in the escapist-romp "The Crimson Pirate"; the same year, 1952, he played the tense and moody husband of Shirley Booth in "Come Back, Little Sheba." As his stardom endured. he could go from a mainstream crowd-pleaser like "Airport" to an Italian art film like "The Leopard" to gentle and intimate comedy-dra-mas like "Local Hero" and "Rocket Gibraltar."

When he appeared in "Atlantic City" in 1980, a new generation of moviegoers saw him as a venerable, enigmatic, wily old man, the epit-ome of faded glamour. In this film, for which Mr. Lancaster got another Oscar nomination, he managed to make even seediness sexy. In "The Rose Tattoo," he traded earthy his-trionics with Anna Magnani. In "The Rainmaker," he romanced a repressed Katharine Hepburn. In "Sorry, Wrong Number," he terrorized Barbara Stanwyck.

Not all of Mr. Lancaster's films were distinguished, and a few were downright loopy, but he never did anything on the screen to disgrace himself, and he was able to walk away from even the clunkers with head held high. "I never got to bat in the major leagues," he said in "Field of Dreams," one of his last movies, but of course he did.

Some of the tough guys really were tough. And some big movie stars really were great actors. Burt Lancaster had presence to spare, a presence so strong that it will survive even, yes, his absence. Burt Lancaster was 80. It was still an untimely death.

# Being Woody Isn't Easy, Ask John Cusack

By Ellen Pall New York Times Service

EW YORK — The eyebrows hop, writhe, point at each other like toy swords. The hands fly out to the camera. bounce up and down, flap, nestle together. There is the pleading look, the cringing look, the fawning look, the meek, inoffensive, attentive look.

The stammer, the broken phrase, the mumbled aside. The flashing glasses. The Brooklyn whine. Not since Groucho Marx has a screen persona invited mimicry like Woody Allen's.

· All of which was sure to be terrible news for whoever got the "Woody Alien role" in the director's new period comedy, "Bullets Over Broadway." The Woody Allen character in the film is David Shayne (John Cusack, as it turned out), a playwright of vaulting ambition but limited talent. Given a chance to direct his new play on Broadway, David finds that one actress's bodyguard, played by Chazz Palminteri, is a far more gifted playwright than he is.

Though Allen has written comedies in which he has not appeared, only once

the nebbish-in-chief; Allen recently directed a television version with Michael J. Fox playing the lead nebbish.)

Critics have referred to Cusack as the 'Woody surrogate" or the director's "alter ego," and a great many filmgoers are seeing Cusack's jumpy, bespectacled David as a simple homage to the master.
But that was never Cusack's inten-

tion, nor was it Allen's. So, since Cusack's usual comic style - nuanced and carefully grounded in a particular character - is light-years from Allen's broad, stylized comedy, the question arises: How did it happen?

Of course, not even the gifted Allen could play David as written. At 58, Allen is too old to play a young playwright. (Cusack is 28.) He and his co-writer. Douglas McGrath, thought at first of making David Shayne older - a college professor, an academic at heart but one who fancied himself an artist and occasionally wrote a play to prove it. McGrath was strongly in favor of Allen taking the part. Allen resisted.

"I thought it's really got to be a younger, more idealistic type." Allen said. "I would have to have had a completely

woman was more fun than the college professor and the Broadway diva. In the end, I just thought it fell slightly more naturally to a younger person.

The younger person it fell to was Cusack. Allen had cast him once before in a minor role as a university student in his 1992 comedy, "Shadows and Fog."
"I always regretted that I had such a

small part for him," the director said. "He makes things seem natural when he speaks; he's not one of those actors who sound like they're acting. And he's got an intellectual quality, so he's believable as a writer."

In Cusack's view, "David Shayne is, in a way, a typical Woody protagonist, a tortured intellectual struggling in a moral gray land. And anyone who's doing the Woody Allen role, unless he makes it his own, is a cheap imitation at best."

He added: "I felt if people said, 'Oh,

John is doing a Woody Allen,' then I failed in what I wanted to do. It isn't nice to hear you're 'doing a Woody Al-

Sometimes, trying to get what he want-ed from Cusack, Allen would actually before has he created a part so perfectly suited to his own skills, then did not play different relationship with Dianne demonstrate how to play him. "There is no better physical comedian than him."

it. (His 1966 Broadway play "Don't Wiest," who plays a theatrical grande said Cusack. "He would jump in and do Drink the Water" had Tony Roberts as crack up. I would say, 'Woody, you can't

do that to me. It's humiliating."

Cusack dropped his voice and somehow shrank his shoulders as he imitated Allen. "He said, 'Yeah, but it's an entirely different relationship. I pay them."

Whether it was the demonstrations, or the script, or the mere strength of his personality, or even a trick of the beholder's eye summoning up that familiar image, Allen's screen persona surely rubbed off on Cusack's performance.

"I was sort of depressed when I read a review that said, 'He does the Woody Allen to a T,' " Cusack said. "Because then I thought I didn't create a character." ter." On the other hand, "If you're going to have someone's presence overshadow you, why not someone you consider to be a genius? It could be worse."

For his part, Allen says he sees little of himself in Cusack's David. Cusack made the character his own, Allen said, improvising many lines. If the actor was suffering from the anxiety of influence, "he certainly never mentioned it to me."

He went on, "I don't see much of a similarity between us, either physically or in terms of playing style. Maybe now and then because I wrote it and I'm directing it, maybe a mannerism will creep in."

Brett Anderson: Not far from the nitpicking press.

# This 'Romeo and Juliet' Is Not for Purists

By Sheridan Morley International Herald Tribune

ONDON — Coming to the Barbican's Shakespeare Festival for only six performances next week (Nov. 2-5) is a "Romeo and Juliet" from the Schauspielhaus in Düsseldorf of considerable if bizarre fascination. The first main-stage work of a 28-year-old director, Karin Beier, who made her name with a German student group that performed Shakespeare in locations ranging from ruined castles to disused garages, this one looks as though its principal influence has been the musical version of "A Clockwork Orange."

In Düsseldorf, this "Romeo" has already caused a certain stir, not least perhaps because the balcony scene is set on trapezes, Juliet is already more than halfway to the madness of Ophelia, Tybalt wears full Nazi costume and the Nurse is a gorgeous young blonde in an evidently lesbian relationship with her Not to be outdone, Lady Capulet folly in itself, still oddly unfinished as plays the ball scene stuffing a pizza down her face, Mercutic commits suily runs out at intermission, tries to paralcide on Tybalt's dagger, and Paris is evidently more in love with the mother than the daughter. This is not, then, a "Romeo" for purists.

At his Haymarket Theatre in Leicester, Paul Kerryson, one of Britain's

#### LONDON THEATER

ablest and most loyal Sondheim directors, has a revival of "Follies" that draws on the Broadway original of 1971 and the much-revised London premiere of 1987. Though somewhat undercast, the new amalgam wonderfully captures the cynical spirit of a show about a group of ex-Ziegfeld girls coming back to the rubble of their old theater as it is about to

become another New York parking lot. What they are searching for is not just their scenery but their own hopes and dreams, for this is both architecturally dreams, for this is both architecturally gentlemen actors to invent the showbu-and musically a fascinating theatrical siness of elegant relaxation.

ly runs out at intermission, tries to parallel lost lives with lost scores.

Mary Millar as Sally and Buster Skeggs as Carlotta are very strong in an otherwise patchy company, but from "Losing My Mind" and "I'm Still Here" all the way through to "Could I Leave You?" this has to be Sondheim's most brilliantly evocative and acidly disillu-

At the Playhouse, once his old London home. Frederick Lonsdale's "On Approval" had been done no favors at all by a slapdash and lazy Peter Hall revival in which neither director nor cast seem to have more than the vaguest interest or involvement. Though we hardly ever get to see him nowadays. Lonsdale was in and social importance, the playwright who built the bridge from Wilde to Coward and enabled a whole generation of

This is also a chilling little quartet about aristocratic loathing and romantic despair, ending with one of the bleakest lines I have ever heard in the theater man to woman who has told him she is locking her bedroom door against him in a frozen Scottish castle: "Don't worry, only the snow will want to get in."

And finally, at Riverside Studios in Hammersmith, an intriguing solo from the Edinburgh Festival: the director Guy Masterson and the writer Mark Jenkins have created "Playing Burton," a 90-minute monologue in which Josh Richards attempts to recapture the spirit of the great Welsh actor while explaining the demons that haunted him, not least the unplayed "King Lear."

Often rambling, indulgent and like the man himself very Welsh, this is nevfact a dramatist of considerable comic ertheless an intelligent attempt to come to terms with one of the greatest classical actors of the century who, like the Antony and the Faustus he played on screen and stage to Liz Taylor, threw it all away for love or profit.

# Charpentier: Revival of a Great 'What-If'

By David Stevens nternational Herald Tribune

ARIS - Marc-Antoine Charpentier is certainly one of the great "what-ifs" of operatic history. Although he was one of the most immensely gifted dramatic com-posers of the late 17th century, he had of theatrical production.

The main roadblock was Jean-Baptiste Lully, the Florentine-born inventor of French opera and, thanks to a national monopoly granted him by Louis XIV. And the younger composer was suffi-ciently present on the Paris musical scene that Lully must have recognized him as a potential threat.

Although Charpentier never held an appointment at the royal court, he was well enough connected among the nobility and with the Jesuits. Most of Charpentier's vast output falls under the heading of sacred music, but this includes dramatic motets or oratorios, and he kept one foot in the theater with pasterals and incidental music for the

One break came when the Lully-Molière collaboration ended, and the actorplaywright-impresario took on the 30or-so-years-old Charpentier for a lamentably short-lived collaboration. Their major joint effort, with a substantial score by the composer, was "Le Malade imaginaire." It ended with Molière's death after the fourth performance in 1673, although Charpentier continued with the company for several

His major opening came when Lully died in 1687, a victim of gangrene incurred when he banged himself on the foot, presumably while too vehemently beating time with his heavy staff. The following year, Charpentier's "David et Jonathas" was staged at the Collège

major stage work, the tragédie-lyrique the action in this telling of the story of "Médée" made it into Lully's former Saul's hostility to David, David's friendstronghold, the Academie Royale de ship with Jonathan, and the latter's death at the moment of David's tri-

William Christie has been a vigorous and eloquent advocate of Charpentier's music, both sacred and theatrical, most plot and recitative, Charpentier concenrecently a production of "Médée." Now trates on expressive arias. It is that, he has turned his attention to "David et indeed, that distinguishes him from Lul-Jonathas," in a semi-staged production ly. # An Echo of David Bowie

Suede's Leader Calls Rock a 'Responsibility'

By Mike Zwerin International Herald Tribune

ARIS — Suede is a great name for a rock band. Even better than Leather. Music with a soft napped surface. But is it perhaps some sort of kinky Kensington code? Should minors be warned by sticker? You wonder why nobody thought it up before. In fact it turned out that there is already an act named Suede in the United States. And in France, Suede means Sweden. This has confused rock fans on two continents. In the United States it has become London Suede, which sounds like a trench coat, but never mind. The French are still confused.

And the going remains clear and straightahead in Britain and Japan, where Suede's first (eponymous) album sold 260,000 and 95,000 copies, respectively. A rock band that is big only on islands can't be all bad (this one is a lot better than bad). And there's hope. "Dog Man Star," released this month, was hailed by a headline in Billboard magazine: "London Suede Ready for the World?" The magazine goes on to describe the band as "a mixture of sexual androgyny, '70s overtones, and passion for clothes from charity shops"

It takes only half a listen and a mere byte of video to realize that Suede's founder, leader, singer and heartthrob, the androgynous Brett Anderson, is influenced by David Bowie. He looks like him, sings like him and the band is good but secondary: "Bowie is open, he's hildlike. He is so uncynical about everything. I don't mind sounding like him. He taught me what a great business this can be if you don't let yourself be pulled down by the nitpicking

The press has been flag-waving rather than nitpicking about Suede. Their two thick press-clip files in three languages contain the hysterical headline: "Hysteria Rising" (another good name for a rock band), and the description: "The most audacious, mysterious, perverse, sexy, ironic, hilarious, cocky, melodramatic and downright mesmerizing band you're ever likely to fall in love with."

My eye fell on Anderson quoted: "Honestly I think lack of sex is vital to my writing process." Can this be true?

"No. It's completely false." Brett Anderson tamed the trademark lock of blond hair falling over an eye. "I'm rampantly sexually active. When you're doing interviews all day you might as well make it interesting for yourself and the person sitting there. So I find these weird things flitting through my brain - oh, that's an interesting idea - and play with them. Then they follow me around. But I've completely changed my mind the next

Anderson has a good act. The poor young man fighting to get rich. Will he retain his sensitivity? The best thing about it is that it just might not be an act at all. Or, better yet, he may only think he's acting.

"My stage persona is completely me. I'm not an actor. I can't put on masks. My stage personality is real life fired through a million accelerators. The stage can turn you into a caricature of yourself. On the other hand, who wants to watch a singing electrician?"

"What are you then?"

"I'm quite thoughtful. I think about music a lot. Music is my passion. The opportunity for communication music gives you is incredible. I've heard that because of us certain people have come out of the closet as homosexuals because their sons and daughters have been listening to our music and that gave them the courage. Every society tells you that you must be a certain stereotypical person. Rock gives us a chance to speak out. It's quite a responsibility, actually. When you get in a band that has a certain name, power comes along with it and people believe any surreal thing you say. If you're not careful, it can crush you into a moronic cabbage."

"Do you get recognized on the street?" "I live in Notting Hill Gate. Around there, or on any High Street, sure. But I live half my life in supermarkets and the other half I find a gang of girls in front of my place. Totally schizoid. We're both known and totally unknown. We're not U2. We played for, like, 20 people in Dallas. In England we can draw 5,000. For sure it's either up or down after this. We get attention in the press because we make good records not the other way around."

THE jacket of Suede's first album, a photo of two women kissing was controversial: "You should have worse. We couldn't use it. The two women were naked, one of them was in a wheelchair and the other one was sitting on her lap.

"In the music business today, everything is based on compromise. It becomes just one big act of diplomacy: not offending the wrong people, pleasing the right people. You end up saying and doing nothing. I guess we wanted to say something about the beauty of deviance. Two things are completely taboo. Lesbianism and disability. If a woman is disabled, she can be beautiful and sensual too.

"Beauty is not only about models. Beauty is more than skin deep. That seems to me to be an important thing to say. The beautiful people of the world are ordinary people who live ordinary lives and say ordinary things. It's like in 'Lady Windermere's Fan.' Oscar Wilde said: 'We are all in the gutter, but some of us are looking at the stars."

# When Designers Take Over the Opera

By Henry Pleasants

ONDON — The new London season has offered a vivid demonstration of the extent to which opera is now dominated by the producer — and his designer. The consequences have been variable.

At one pole we have had a brilliant production and a strong cast salvage a weak opera. At the other we have had a strong cast and a fine conductor and orchestra salvage a deplorable production of a masterpiece. The Royal Opera opened with a reviv-

al of the Andrei Serban-Sally Jacobs production of Puccini's "Turandot," now livelier, more colorful and more enjoyable than ever. No need here to salvage a slack performance. The American Sharon Sweet, singing her first Turandot, made it an auspicious Covent Garden debut, and Giuseppe Giaco-mini, also a Covent Garden debutant, was a stalwart Calaf.

The English National Opera at the Coliseum opened with a new production

better. But the company came back strongly with a new Graham Vick production of Massenet's "Don Quichote" (given here in English as "Don Quixote"), written by the 68-year-old composer for Chaliapin and first performed in Monte Carlo in 1910. There had not been a professional performance here

This is an opera about which Lawrence Gilman wrote in the New York Herald Tribune when it was heard in New York in 1926, again with Chaliapin: "A maddening trickle of banalities, shallow, tepid, tasteless. If Massenet had not already gone to his accounting, horribly would the ghost of Cervantes haunt and reproach him for this miserable, degrading travesty.'

Gilman got it right, but here Vick has come to the rescue, opting to have fun with it. He mounts the deluded knight and his faithful Sancho Panza on horse and donkey ingeniously contrived from electrically controlled tricycles, unconcerned about the incongruity of tradi-

of "Tosca" about which the less said the tional costuming for his principals. with Wotan, and so on and so on? Superb performances by the veterans Richard Van Allen and Alan Opie help to make it an evening not to be taken seriously, but to be admired for the finesse with which it is all carried off and to be relished simply as a show.

> Which bring us to "Das Rheingold" and "Die Walkure" at Covent Garden, the initial installments of a new "Ring" cycle conducted by Bernard Haitink and produced by the English team of Richard Jones and Nigel Lowery. The open-ing of "Rheingold" was greeted by a full-throated chorus of boos beyond anything previously heard at Covent Garden, and from every part of the house. "Die Walkure" fared better, but

> How to describe these productions? What to make of Alberich in bowler hat and frogman's flippers; the giants as Siamese twins; Brünnhilde in a track suit with skimpy cheerleader skirt; Erda as a nonsinging flamenco dancer: Fricka emerging from a battered limousine in a wedding dress for her confrontation

> > 633-1000

The word that comes immediately to mind for this sort of thing is "surrealism," defined by the OED as "purporting to express the subconscious mind by images etc. in sequences of associations such as may occur in dreams." A less charitable term might be the vernacular

"send-up." Again, cast, conductor and orchestra come to the rescue. They were applauded on first nights as thunderously as the producing team was booed. John Tomlinson and Deborah Polaski, Bayrenth veterans, are splendid as Wotan and Brunnhilde, as are Ekkehard Wlaschiha as Alberich, Jane Henschel as Fricka and Robert Tear as Loge. Nowhere, today, will one hear Wagner better sung and better played.

Additional performances of "Turan-dot" Oct. 31 and Nov. 2 and 5; of "Don Quixote" Oct. 28 and Nov. 1, 3 and 9; of "Die Walküre" Oct. 29, at 4 P. M.

# Escaping the Past in East Europe Ventures With Western Partners Start From Scratch

By John Pomfret Washington Post Service
WARSAW — An empty

warehouse off a gritty industrial artery once known as Stalingrad Road is an unlikely place to find hope in Eastern Europe - especially when it combines a lumbering stateowned enterprise and one of the biggest corporations in the capitalist world. care about losses. A culture

But the \$30 million joint venture between General Motors Corp. and the Polish carmaker Fabryka Samochodow Osobowych, known as FSO, that is turning this cavernous building into a brand new factory reflects one increasingly popular method for Eastern Europe to deal with its troubled history: Padlock the past and start over.

GM's philosophy is simple, according to Richard Thornton, general manager of GM Poland: Keep the workers, as long as they leave everything behind. Under terms of the deal, GM's joint venture partner has no right to influence the business plan, and the current FSO factories will not be involved in the project at all. Instead, GM has gutted the old warehouse and is install-

The reason GM has little flourished, the old saw goes, financial interest in allowing a Polish business to make decisions is that for four decades the factories of Eastern Europe specialized in producing one thing - junk. Quality control was nonexistent. Communist accounting didn't factor in profit and did not

# **Toyota Plans** A Car to Offset Yen's Surge

By Steven Brull ional Herald Tribune

TOKYO — Toyota Motor Corp., determined to make the strong yen more a blessing than a competitive burden, is designing a subcompact car that can be produced for 30 percent less than current models, company officials indicated Tuesday.

The vehicle, not expected un-til late this decade, will be de-signed to compete with lowpriced challengers such as Chrysler Corp.'s Neon, according to the company.

In addition, the car is to be cheap enough to produce so that it can be exported from Japan even if the dollar falls to less than 90 yen. Toyota hopes thereby to avoid a "hollowing out" of production and jobs in Japan. A lower dollar makes Japanese exports more expensive in the United States and tends to raise prices of Japanese goods elsewhere.

It remains unclear exactly which was outlined Tuesday in the financial daily Nihon Keizai but was confirmed only as "consistent with our principles" by company spokesmen. The newspaper said Toyota would build the new car using a mod-ule-based assembly technique.

'They're moving back the goal posts," said Stephen Usher, an analyst at Kleinwort Benson Securities. "Their original goal was to be profitable at 100 yen to the dollar with domestic production. Now it's gone back

Toyota's plan could cause officials of foreign governments, as well as currency traders, to revise the view that the strong yen will act as a weapon to blunt Japanese competitiveness

and trim the nation's towering

trade surplus.
Indeed, it adds weight to the argument that Japan is taking the strong yen as a bitter but powerful medicine that will force its manufacturers to ratchet up their efficiency and competitiveness to ever higher

"Our intent is to raise the global benchmarks for production-cost competitiveness," a Toyota spokesman said.

Ever since the Plaza Accord of 1985 — an agreement among world leaders on exchange rates

kicked the yen into overdrive, many have said that a stronger yen would reduce Tokyo's surplus by making exports more expensive and imports cheaper in Japan.

And Japan is importing far more soft drinks, computers and even cars. But exports have remained robust because many Japanese products - from liquid crystal displays to machine tools - still are competitive, or because there is no other major source for them. Accordingly, Japan's trade surplus has soared to record proportions and begun to subside only slowly and selectively.

Meanwhile, and against the odds, Toyota has managed to remain profitable, largely by making adjustments in its supply network and increasing its overseas production. Last month the company announced it would double production in the United States over the next three years.

Nissan Motor Co., Honda Motor Co., Mazda Motor Corp. and other domestic competitors have adopted strategies similar to Toyota's but have fared less well. But like Toyota, these companies are expecting improvement in earnings as the domestic economy begins a gradual recovery.

and the second

Compiled by Our Staff From Dispatches ROCHESTER, New York - Eastman Kodak Co., struggling to cut costs and refocus its business, said Tuesday it posted

a weaker-than-expected third-quarter The company earned \$193 million on revenue of \$3.53 billion in the quarter. A year ago, largely because of \$353 million in

restructuring costs, it posted a loss of \$68 million on revenue of \$3.18 billion. Without the one-time charge, earnings were down nearly 31 percent in the third

Anticipating a second-half earnings decline, Kodak has begun a deep cost-cutting program through the end of the year that its chief executive, George Fisher, said

may include "a restructuring program." He did not elaborate.

The third-quarter result is a setback for Kodak, whose credit rating and stock price

have improved this year as it sold off certain operations and refocused on its main photographic and electronic imaging operations.

Kodak has raised \$7.88 million from this year's divestitures of health care, consumer products and other nonphotography subsidiaries. The businesses were acquired in the 1980s for around \$5.4 billion in an illfated diversification that weighed the company down with debt.

In an internal memo last month, Kodak said it would freeze hiring for the rest of the year, speed staff reductions, cut re-

a restructuring program consistent with these efforts," Mr. Fisher said. "Kodak will not inventory its problems and carry them forward." he said. "We will

search costs and halve the number of hired

contract workers. The company is aiready

in the process of laying off 10,000 workers.

which will reduce its work force to about

emerge from 1994 with a strong balance sheet and a solid benchmark for measuring future performance."

On the New York Stock Exchange, East-man Kodak shares rose 25 cents, to \$48.00.

# **Canal Plus Aims for More**

116.82 117.09 -0.23

135.63 137.22 -1.16

By Richard Covington
Special to the Herald Tribune

PARIS — It had to be one of the most

unwelcome birthday presents ever.
On its 10th anniversary, Canal Plus was handed a bill by Nicholas Sarkozy, the budget minister and acting minister for communication, requiring the pay-TV network to nearly triple its contribution to French television

productions by 1999. Currently, Canal contributes 1.8 percent of its revenue to production. This will be raised gradually to 4.5 percent in 1999.

On its current revenue, that would amount to 335 million francs (\$65 million), compared with 120 million francs. The government order also will oblige the network to produce made-for-TV films, documentaries and animated features - none of them part of its core business.

The mainstays of Canal Plus's programming are feature films previously released in cinemas and sports, largely soccer and box-

The network already forks over 9 percent of its revenue to finance French cinema productions and to air virtually all new French

Pierre Lescure, chairman of France's only pay-TV network, was less than pleased.

"It's a typically French attitude." said Mr. Lescure, who took over the company in February after the abrupt departure of Andre

Rousselet. "You have a concession; you have

to pay after that." Serge Siritzky, a media analyst at Telescoop Conseil in Paris, characterized the negotiations between Canal Plus and the government as "fundamentally bitter."

"The network is sore," Mr. Siritzky said. "They don't understand why they are being forced to invest in uncommercial programming to renew their license."

But Canal Plus may be able to turn the government's requirement to fund more local television production to its advantage. The network has done it before, managing to turn a government demand to air some unencrypt-'ed programming — an unheard-of practice for a pay channel at the time — into a promotional window to attract new subscrib-

The government's latest order, announced Oct. 10, came with Canal Plus poised to launch several international ventures. The ambitious aim, according to Mr. Lescure, is to make the network's name as recognizable as

those of Time Warner, Disney and Turner. As major American studios and networks race to invest in European networks, Canal Plus is forming strategic alliances to preserve its dominant position in France, extend its reach within Europe and expand further into

the U.S. market. And with an unbroken string of profitable years and 1994 profit forecast in the neigh-borhood of \$160 million — although that would be down from 1993's high of \$226 million - Canal Plus would be is one of the few major European companies capable of mounting such an offensive.

With 3.7 million subscribers in France, Canal Plus is approaching saturation point and needs to reach a wider audience to finance its ambitions in film, interactive ser-

#### MARKET DIARY

# **Stocks Burdened** By Profit Outlook

Compiled by Our Staff From Dispatches NEW YORK - Concerns that rising interest rates will clip corporate profit growth next year were blamed for pulling the stock market lower Tuesday.

The Dow Jones industrial average finished down just 4.71

#### **U.S. Stocks**

points at 3,850.59, but losing issues outnumbered gaining issues by a 2-to-1 ratio on the New York Stock Exchange.

The price of the benchmark 30-year Treasury bond was steady at 93 27/32, with the yield at 8.04 percent.

Analysts said that with bond yields above 8 percent and the Federal Reserve Board still in a tightening mode for monetary policy, prospects for a stock rally were slim.

Higher rates mean "the economy is likely to slow materially during 1995, and that suggests much weaker earnings growth next year than this year," said Donald Straszheim, chief economist at Merrill Lynch.

Teléfonos de México's American depositary receipts were to 79 on a buy recommendation the most actively traded Big Board issue, plunging 31s to 57% after the company said its conglomerate posted strong third-quarter earnings were earnings lower than analysts expected.

Steel, heavy machinery and paper stocks also were among the biggest losers. Profit at those companies is particularly sensitive to economic and interest-rate cycles.

The Dow

Daily closings of the Dow Jones industrial average

USX-U.S. Steel slid 24 to 361/2, also burdened by an earnings report that fell below most analysts' expectations. Bethlehem Steel, which lost 11/8 to 1818, Deere, down 1/4 at 72, and Caterpillar, down % to 57%, were among the big cyclical issues that lost ground.

Baxter International fell 142 to 25 after the medical supply company reported earnings that were just below analysts' expectations.

But oil stocks were strong, helped by reports of higher profit from Texaco, which rose is to 63, Chevron, up ¼ at 43¼, and Phillips Petroleum, up 1 to 34%. Strong earnings also lifted Wm. Wrigley Jr. Stock in the world's biggest chewing-gum

maker jumped 2% to 43% after it said an increase in international sales helped the bottom line. Capital Cities/ABC rose 1% to 79 on a buy recommendation

#### **Late Recovery Saves Dollar From New Lows**

NEW YORK — The dollar DM on Monday. tumbled to a post-World War II

U.S. currency

Foreign Exchange sury market helped the dollar recover from two-year lows against other major currencies. Bonds recouped early losses after tepid economic reports eased inflation concerns.

The dollar is struggling," said Steve Flanagan, a trader at PaineWebber. "No one wants to hold the currency.'

The dollar fell to a low of at 96.83 yen, down from its close Monday of 97.15 yen.

The dollar fell to 1.4860 Deutsche marks, its lowest level in two years, before closing at Wechsel-Bank AG.

1.4967 DM, up from 1.4915

The dollar rose to 5.1225 low against the yen Tuesday French francs from 5.1135 amid speculation that the francs Monday and to 1.2492 world's central banks probably Swiss francs from 1.2428 would not spend their reserves francs. The pound rose to trying to rescue the flagging \$1.6360 from \$1.6325.

A rebound in the U.S. Trea-trading, the dollar fell after a news service reported that European monetary officials were reluctant to join the Federal Reserve should it try to support the dollar.

The Bank of Japan bought dollars for yen in Tokyo, traders there said. Few traders expect the Bank of Japan to have much success defending the dollar unless other central banks cooperate.

U.S. reports on consumer 96.42 yen but recovered to close confidence and on employment costs "helped bonds recover a little, and that helped the dollar," said Richard Vullo, a deal-

# Japanese Firm Gives Up U.S. Technology Dream

By Andrew Pollack New York Times Service

TOKYO - Kubota Corp., the Japanese tractor manufacturer that tried to become an electronics company by investing in American technology start-ups, gave up on much of its dream Tuesday.

The company, based in Osaka, said it would scale back its computer business. stop making engineering workstations and close its Silicon Valley subsidiary, Kubota Graphics Corp., by year-end.

sell some of its technology to Digital Equipment Corp. and to Picker Interna-tional Inc., a medical imaging company. It said it would continue developing threedimensional graphics technology for personal computers by setting up an American company that would employ some of the workers from the company being shut

Kubota attracted headlines in the late

Kubota said it would give up on hard-ware and concentrate on software. It will companies.

In an interview in 1988, a Kubota executive said the company hoped to get 50 percent of its revenue from computers by the mid-1990s. But a spokesman said Tuesday that sales by the computer business had amounted to only 30 billion yen (\$300 million). Kubota's total revenue in the fiscal year ended in March was 979.5 billion

## U.S./AT THE CLOSE

#### Data Point to Slowing U.S. Growth

NEW YORK (AP) - Economic reports released Tuesday indicated faltering consumer confidence and weak wage growth, suggesting that the American economy may not be as robust as ink T

∵<u>ः</u> •₫

forecasters thought.

The Conference Board's consumer confidence index, which tracks consumer behavior through a monthly survey that measures their level of financial security, showed that consumer confidence dropped in October for the fourth straight month. The historically slow rise in compensation paid to American workers, at an annual 3.2 percent, continued in the third quarter,

and economists said that showed inflation was under control. In contrast, the National Association of Retailers said sales of preowned homes rose I percent in September to an adjusted 3,970,000 on fear of inflation and higher rates.

#### Core Growth Makes RJR Profit Soar

NEW YORK (AP) - RIR Nabisco Holdings Corp. said Tuesday that earnings nearly tripled in the third quarter, reflecting accelerating growth in its core tobacco and food businesses.

RJR Nabisco posted a profit of \$216 million in the quarter,
compared with \$76 million a year earlier. Revenue rose 10 percent

to \$3.97 billion. Operating profit at the company's tobacco unit, which makes the Winston, Camel and Salem brands, rose 54 percent. The food business, including the Oreo and Ritz brands, posted a 24 percent gain in earnings from operations.

#### Salomon Brothers Weighs Job Cuts

NEW YORK (Bloomberg) — Salomon Brothers Inc., battered by two consecutive quarterly losses, is considering job cuts and other changes to convince investors their money is safe at the firm, an executive said Tuesday.

The Salomon Inc. unit is considering paring some of its 6,800 memployees amid Wall Street's worst slump in four years. The firm also is reviewing whether to modify its proprietary trading, where

also is reviewing whether to modify its proprietary trading, where it bets billions of dollars of its own money on the markets, an executive involved in the planning said.

#### Car Sales Give Boost to Goodyear

AKRON, Ohio (Bloomberg) - Goodyear Tire & Rubber Co.; benefiting from the continuing boom in U.S. auto production and higher international sales, said Tuesday that third-quarter profit rose on record revenue.

Goodyear's net income rose to \$151.3 million, after profit from continuing operations of \$131.2 million a year earlier. A gain of \$5.2 million from the sale of its Reneer Films subsidiary boosted income to \$136.2 million in the 1993 period.

#### Mobil Announces Heavy Job Cuts

WASHINGTON - Mobil Corp. said Tuesday it planned to make significant reductions in support staff jobs worldwide. The company denied a report in the Washington Post that said as many as 15,000 jobs would be cut.

Support staff jobs range from clerical workers to accountants.

Worldwide employment at Mobil is currently about 60,000. Mobil said it had not yet determined how many jobs would go. Separately, three major U.S. oil companies announced strong third-quarter results.

third-quarter results.

• Chevron Corp. said its profit edged up to \$425 million for the third quarter, from 420 million. The figures reflect an \$18 million gain this year and a special charge of \$145 million a year ago. Chevron's sales rose 3 percent, to \$9.51 billion.

• Texaco Inc. said profit from continuing operations rose 6 percent because of increased production and higher oil prices. Earnings from continuing operations, excluding special items and tex benefits on asset sales rose to \$770 million from \$255 million a tax benefits on asset sales, rose to \$270 million from \$255 million a year ago. Net income nearly doubled to \$281 million from \$142 million. Revenue rose 6 percent to \$8.96 billion.

• Phillips Petroleum Co. said moves to cut costs and streamline

operations helped its net income rise to \$119 million from \$41 million a year ago. Revenue rose 5 percent to \$3.35 billion. (AP, WP, Bloomberg, AFP)

#### For the Record

Ouaker Oats Co. said its earnings fell 37 percent, to \$57.3 million, in its first quarter because of a courtroom defeat in a battle over a Gatorade slogan, higher marketing costs and lower pet food sales in Europe.

(AP)

Tele-Communications Inc. said it would pay \$290.3 million in

stock to buy Comcast Corp.'s 19.9 percent stake in Heritage Communications Inc., a cable television operator. (Bloomberg)

# Cleaning Up Starts in Slovakia

# New Plant Faces Severe Environmental Challenge

By Jane Perlez.
New York Times Service

ZIAR NAD HRONOM, Slovakia -Rudolf Camaj doesn't quite know whether to trust the stories that one day the aluminum plant here will be so clean there might be an outdoor swimming pool for the workers.

"It is almost unbelievable to us that the old factory will be replaced by a new factory that won't be harming the envi-ronment," said Mr. Camaj. 39, a fire-safety worker who has toiled inside the smelters among the noxious fumes since he was 16.

He remembers that when he was a boy an entire village nearby had to be emptied when people became sick and buildings ruined. That was just six years after the plant opened in the late 1950s. He has seen the grass shrivel up, the

animals die and the trees wither. Even so. Mr. Camaj said, people were grateful for the plant because it provided jobs. Instead of closing the Stalin-era dino-saur, as has been the case with many plants that supplied material for the weapons industry in Warsaw Pact coun-

21st-century factory. Plans are under way to have the ZSNP plant meet the toughest environmental standards, though the problems at the works make it seem like an unlikely experiment in environmental and financial

To achieve this, financial backing is coming from the European Bank for Reconstruction and Development, which says it has set stiff environmental standards for the plant, including such aesthetic improvements as planting grass on the immovable mountain of brown mud.

When experts from the European Bank visited to work out a rehabilitation plan,

conditions," said Timothy Murphy, an

environmental manager at the bank. The health record of the workers is bleak: chronic poisoning from overexposure to fluorides and a high incidence of lung cancer and respiratory diseases.

An orange haze tints the sky. A huge heap of brown mud covering nearly 100 acres (40 hectares) and composed of 8 million tons of waste soars above the factory, dwarfing some of the buildings. In Western Europe, such waste was

often dumped into the sea; in the Ziar valley it just piled up and now threatens the groundwater supply from the Hron River, a tributary of the Danube.

Of all the heavily polluted countries in the former Eastern bloc, Slovakia has one of the worst records.

Much of the metallurgical and chemical industry was built in the eastern half of the old nation of Czechoslovakia. Before the split into the Czech Republic and Slovakia, the Prague government wanted to close the plant.

But there were arguments in favor of trying to pump in Western money to keep it alive through modernization.

From the Slovak point of view, there was the need for jobs: The site was chosen in 1953 to provide industrial jobs in an agricultural region. Some 5,500 people work here now, down from 7,000 in

But beyond jobs, Slovaks could point to environmental efforts, however meager, that had been tried just before the collapse of communism. While those efforts may have had only minimal impact at the plant, a nascent environmental movement in the late 1980s was the haven of Slovak dissidents.

"In the 1980s, the managers were in-terested in change," said Dr. Eleonora Fabianova, director of the Institute of Hygiene and Epidemiology at nearby Banska Bystrica. By 1988, she said, the health hazards were recognized to the extent that shifts were cut from eight hours to six and workers were given an extra week of vacation.

The Slovaks also made a fairly persuasive financial argument.

Work has started on an environmentally sound smelter to replace the two smelters that spewed poison into the air. There was a good chance that the Ziar valley plant could become a big seller on the world market in light of dwindling

"In other ex-Communist countries. aluminum production has been pretty much stopped," said Richard Kafka, the technical manager at the plant, who has welcomed a parade of foreign experts in the last several years.

"We are in the middle of all these graveyards," he said. "We will be a modern, ecologically sound factory.'

# Rebound in U.S. And Japan Aids Matsushita's Net

Compiled by Our Staff From Dispatches TOKYO - Matsushita Electric Industrial Co., Japan's largest consumer electronics maker, said Tuesday that the economic recovery in Japan and the United States helped pretax profit rise 26 percent in its first six

The maker of Panasonic and National brand goods reported current profit for the period of 37.41 billion yen (\$384 million), up from 29.69 billion yen in the period last year. Sales rose 3 percent, to 2.2 trillion yen.

The domestic economy is on the mend, although a full recovery is still a way off," said Su-

#### China Will Buy Intel Networks

Bloomberg Business News BELJING - Intel Corp. said Tuesday it had signed an agree-ment to provide networking and conferencing technology for China's nascent information superhighway.

Under the terms of a memorandum, the American computer-component maker's networking and conferencing products will be distributed by Jitong Communications Co., a company set up this year by the Ministry of Electronics Indus-

China has said it plans to invest \$150 billion over the next 26 years in building an informa-

helped Matsushita's earnings by pushing up sales of air conditioners and refrigerators, Mr.

Ishihara said. Audio and video products continued to perform poorly. Sales of video cassette recorders fell 14 percent.

Improved economic condi-tions in the United States and Asia helped push sales higher, although there was no improvement in Europe.

Regarding the company's dispute with management of its subsidiary, MCA Inc., Mr. Ishihara repeated the company's position that the Hollywood movie studio was not for sale.

Mr. Ishihara said the company's results in the year to March 1995 would improve, but he cautioned that the strength of the yen "may mean difficulties"

for the company.
(Bloomberg, Reuters) ■ Accord on Disk Standards Hitachi Ltd. and Sony Corp.,

along with Minnesota Mining & Manufacturing Co. of the United States, announced a basic agreement on specifications for the next generation of computer disks. Agence France-Presse reported.

The companies said as much as 650 megabytes - or 650 milhon units — of data would fit on one of the new disks, which will be about the same size as conventional 3.5-inch (8.9-centimeter) disks. The storage capacity of existing disks is limited to 230 megabytes. The new disks also are to have a higher access speed than existing ones.

# Beijing Resists Trade Plan **Objections Raised to APEC Timetable**

than \$650 million to develop

the aircraft and hopes to sell

The company has spent more

BEIJING - A Chinese official said Tuesday that Beijing would not accept a binding timetable for free trade in the Asia-Pacific region, blocking a movement for next month's APEC forum to lay plans for a freetrade zone by 2020.

Li Enheng, director of the Department of International Trade and Economic Affairs in China's Trade Ministry, said Beijing supported trade liberalization.

But he said it did not want the Asia-Pacific Economic Cooperation forum, a group of 18 economies that account for 40 percent of world trade and about half of total world production, to become an institutionalized means of imposing decisions on member countries.

China's opposition to formal timetables means APEC, meeting in Indonesia next month, will probably only adopt a vague statement of intent to have free trade by 2020. Some members of APEC have been pushing for a free-trade zone by 2020, and a business advisory group said the goal should

be set 10 years earlier than that. "We support the long-term goal of free trade in the APEC region, but as far as

independence.

timetables, we do not stand for timetables, because with timetables it may mean actions or decisions or measures will be binding on members." Mr. Li said. "This is not consistent with the nature of this organization."

Mr. Li said China could accept a looser timetable as long as it was clear that countries still had the right to adjust the schedule to their individual circumstances.

China Says It Enforces Copyright Rules China said it had lived up to the letter of a 1992 memorandum of understanding with the United States on protecting copyrights, patents and other intellectual property, the Asso-

ciated Press reported. The statement appeared to be a reply to Charlene Barshefsky, the deputy U.S. trade representative, who said this month that piracy of compact disks and computer software remained extremely serious in China and that enforcement was inadequate.

She said the United States wanted China to impose stronger penalties for piracy, prevent pirated goods from crossing China's borders and buy legitimate U.S. goods such as compact disks to meet the consumer demand now filled by pirated goods.

more than 300 aircraft.

to be decided in December.

free-trade zone.

# Stir Rift in Hong Kong

**Futures** 

HONG KONG — The Hong Kong Futures Exchange said Tuesday it would introduce futures contracts on two individual stocks before year-end, prompting a strong public reaction from the colony's stock ex-

The first two stocks to have contracts will be the international banking group HSBC Holdings PLC and Hong Kong Telecommunications Ltd., said Ivers Riley, chief executive of the futures exchange.

They are the two largest components of the Hang Seng Index of Hong Kong's top shares. HSBC has a 13.973 percent weighting in the index, and Hongkong Telecom accounts for 10.561 percent.

The move follows a decision by the government to amend laws to allow stock futures contracts, which are agreements to buy or sell a specific amount of a security at a specific time and

The Hong Kong Stock Ex-change, annoyed that it had just been told about the futures contracts Monday, said it feared that the introduction of such sia's state-owned Nusantara them for \$13.5 million each, he contracts on individual stocks would make share prices more Since its inception in 1976, the

#### Very briefly:

 Hino Motors Ltd.'s current profit rose 39 percent in the first half of its financial year, to 2.79 billion ven (\$29 million), helped by a 9 percent increase in sales.

Nippon Television Network Ltd. raised its pretax profit forecast for the year ending in March 1995, to 11.6 billion yen from 6.8 billion yen, citing cost-cutting measures and higher ratings that are allowing it to charge more for advertising.

West Japan Railway Co. might defer its listing on the Tokyo Stock Exchange, which was to take place before March, because of the weak demand shown for shares in Japan Tobacco Inc., Shizuka Kamei, the country's transport minister, hinted.

 China will double its investment in infrastructure to about \$500 billion over the next 10 years to relieve bottlenecks hampering economic development, Finance Minister Liu Zhongli said.

 Japan's leading economic index stood at a seven-year high of 100 points in August, up from a revised 63.6 in July; it was the eighth consecutive monthly reading above 50, the dividing line between economic expansion and contraction. Japanese department store sales in September fell 2.1 percent

from September 1993 after a 3.6 percent decline in August, the 31st month in a row of year-on-year decline, the Japan Department Store Association said.

 Morgan Stanley & Co. opened an office in Beijing on Tuesday. one day after it announced it was helping start China's first international investment house. AP, Knight-Rubber, 4FX, AFP

**GLOBAL** PANEL

#### The Search for new Relationships 17-18 November 1994 Maastricht

500 opinion leaders and decision makers from the international business community and political world will meet at the 7th annual Global Panel Conference. The conference includes plenary sessions, parallel sessions, networking lunches and receptions. These will give the participants the opportunity to exchange ideas about the latest developments in the field of global politics, economics and business. The Global Panel offers the participants excellent networking opportunities.

Some of the main plenary sessions include:

The Search for new Relationships

Supachal Panitchpakdi, vice-premier of Thailand Zheng Hongye, chairman China Council for the Promotion of International Trade

Moving out to the 21st Century

Gordon Sullivan, chief of staff United States Army Richard Pascale, business consultant, USA

World Economist Forecast

Franz Vranitzky, chancellor of Austria Andreas van Agt, ambassador EU, Washington The Global Automotive Industry

Louis Schweitzer, chairman & CEO of Renault, France John Vinocur, executive editor and vice president International Herald Tribune Pehr Gyllenhammar, former chairman Volvo, Sweden Frans Sevenstern, president of Nedcar, Netherlands

Business in a Competitive Area

# ${\it Striking \, Down \, Angels \, With \, a \, Graceless \, Game}$

T ONDON — He moves like a firefly through the L streets of San Francisco. Call his name. Fio Maravilha, and he stops, he hovers, he moves stealthily on. He has to, otherwise the pizzas he delivers will get

cold. But as he goes, the limp in his stride was once an athlete, a Hughes reminds you that this great one, who dodged

and wove between the hardest men of his time. Many who followed soccer in Rio de Janeiro during the 1960s need nothing more than a musical tape to recall his art. It is recorded in song by Jorge Ben, whose "Beleza Tropical" collection includes a track labeled Fio Maravilha. That name, given by the fans, translates as Ugly Marvel, an affectionate tribute to the protruding teeth and the wizardry in a player baptized João Carlos Baptista Desailes.

A mutual friend in San Francisco introduced me to Maravilha during the World Cup. His shyness, and the pressure on his time to deliver, made for a fleeting acquaintance. But, back at the friend's apartment, we listened to "Fio Maravilha."

It is a love song, a fan's adoration to the trickery, class and courage that culminated in "the goal of an angel." The song played on my mind this week as I watched, on cable television, a match between Maravilha's club Flamengo and a Rio rival, Palmeiras. The affair was bittersweet; the beauty of Brazilian soccer in conflict

with savage foul play. I couldn't help thinking of Maravilha's premature end, his wrecked knee, his overnight reduction from prime footballer to dishwasher at a San Francisco hotel. He was grateful for any job. Like thousands of Brazilians, he had given up an education for the adolescent seduction of fame and fortune dressed in

Flamengo red and black. Don't accuse me of exaggeration. Flamengo is proud of its "factory," which sifts through 3,000 recruits a year and turns the best, the luckiest, into worldly talents. Flamengo has groomed 80 Brazilian internationalists over 20 years.

In today's market, few angelically gifted Flamengo boys stay. They fly away: Bebeto, for example, currently shoots goals for Deportivo la Coruna in Spain.

Zico, perhaps second in fame only to Pelė, has just retired, aged 41, a very wealthy man in Japan.

Once Brazil's minister of sports. Zico warned years ago of the thuggery laced into Brazilian jogo bonito, or pretty play. He, and Fio Maravilha, would have shuddered at the reckless and wretched fouls between Flamengo and Palmeiras this week.

Opponents were hacked down. Shoes cleaved into calves, thighs, even higher into ribs, with gross disregard for the welfare of fellow professionals.

Silently, I cried for Brazil. It is now precisely 100 years since Charles Miller, born of an English father and Brazilian mother, took a ball and the game to São Paulo - and for the last third of that, the British have wondered whether they might ever get their ball back.

Brazilians, as they proved in regaining the World Cup this summer, apply imagination to that inanimate object beyond most other people's wit. Their exports are everywhere, which explains why on successive Sundays, Carlos Alberto Parreira, coach of the World Cup side, has tried to stop his own countrymen from

Parreira now coaches Valencia, in Spain, and two weeks ago his new side managed to keep quiet Romario, the leading scorer for Barcelona. The plan was obvious: Parreira first hired another Brazilian, Mazinho, then positioned him a yard in front of Romário with instructions to intercept whatever passes came.

B EBETO watched and when his turn came against Valencia, he ducked and he dived (a firefly you might say). He artfully scored a penalty and later stole a brace of goals of his own, taking them with swift. delicate economy.

Meanwhile, back in Rio. Flamengo has a new starlet. His name is Savio, his age is 20, he is white, slight and on Sunday's form he has a predator's instinct.

After 13 minutes, Savio rode the Palmeiras tackles with a sinewy run and a stunning shot from a seemingly impossible angle. The goal of an angel?

Then he lay quiet for an hour - a destructive hour, as Flamengo, desperate for the victory, insulted the game with scything, sometimes wicked fouls. Palmeiras was just as good at being bad.

The referee half-heartedly waved yellow cards, ig-noring FIFA's latest order that makes cynical fouls punishable by mandatory red cards.

So ugliness rose like a boil, like in fact that moment of horror at Palo Alto on July 4 when Tab Ramos, an American player, was chopped down by the elbow of Brazil's left back, Leonardo, with such force that Ramos suffered brain damage.

F IFA came down hard on Leonardo, making him effectively the first alarmatical and the first ala effectively the first player to be thrown out of a World Cup. Nevertheless, in New York this week. FIFA is honoring Brazil with its Fair Play Trophy for "style and conduct in winning the World Cup."

Style yes, conduct no. Surely Brazil had won enough without this award, and surely a team without such a disfiguring moment deserved the fair play accolade.

Anyway, while in New York, another inappropriate prize - the Brazilian-American Chamber of Commerce's "Person of the Year" honor - is being bestowed upon João Havelange.

He, of course is Brazilian. He is FIFA's president. And he barred Pele from the World Cup stage at the start of the year and did not deign to address the president and the people of the United States in a word of English.

Still, his speaks his son-in-law's tongue. Therefore, Havelange should tell Ricardo Teixeira, his wife's husband and Brazil's soccer federation president, that the cleanup campaign applies universally.

Teixeira, recently elevated to FIFA's executive panel, must explain why his federation has abandoned the practice of suspending players who acquire three vel-

Brazil's federation intends instead to fine offenders \$50 per card, thus licensing thugs to kick artists for a fraction of their daily bonuses.

Those of us who cherish Brazil's skills above all others are dismayed. We love the style, we abhor the betrayal of rules designed to allow creators to play without fear.

We look at Fio Maravilha, too quiet to harm a fly. and we ask how many more will be kicked into touch for a \$50 fine?

Rob Hughes is on the staff of The Times .

# Peugeot Joins Jordan Prix Team

PARIS (AP) — Peugeot will separate from the McLaren Fermula One team and join forces with Jordan Grand Prix, the head

of Automobiles Peugeot said Tuesday.

The move will terminate the McLaren-Peugeot association after one year of a planned four-year collaboration, said Frederic Santi-Geours, director of Automobiles Peugeot, a division of PSA

Peugeot-Citroen, France's largest automaker.
Peugeot will supply its three-liter, 10-cylinder engine to Jordan
Peugeot will supply its three-liter, 10-cylinder engine to Jordan beginning next season for three years, Saint-Geours said. McLaren is looking elsewhere and speculation is that Mercedes will attrounce its association with the British team in Stuttgart on Friday.

#### NHL Reduces Schedule by 4 Games

NEW YORK (AP) — Finally admitting that it cannot salvage its entire season because of its lockout, the National Hockey League has canceled four games for each of its 26 teams to make it an 80-game schedule instead of 84.

"Each team will lose two home and two road games," the league

said in a brief statement Monday.

Meanwhile, the NHL commissioner. Gary Bettman, and the union head, Bob Goodenow, met in Chicago but made no pregress. It was their first meeting since Oct, 10 in Toronto, when Goodenow presented the union's last proposal.

#### 2 File Suit to Lift NBA's Salary Cap

NEW YORK (NYT) - The National Basketball Associate labor problems worsened when two players sued the league in federal court, alleging that the league artificially reduced the salary cap for the coming season.

In Monday's action, filed in U.S. District Court in Newark.

New Jersey Golden Store's Decid Monday and Minneyers's House

New Jersey, Golden State's David Wood and Minnesota's Howard Eisley alleged that the league should add a payment of 574 million to the cap, or \$2.75 million per team, that would have been made to a personnel of the same than the same team. made to a prepension benefit plan the players canceled in June.

"The league is deducting the payment and pocketing the mon-ey," said Jeffrey L. Kessler, the players' lawyer, who said they would have been paid more if the cap included the \$2.75 million.

#### For the Record

Bobby Hammond, a Philadelphia Eagles assistant coach, was named head coach Tuesday of the London Monarchs of the World League of American Football, which resumes play in April

TIGER EYE — Tiger Woods, 18, the U.S. Amateur golf champion, following a shot en route to a 5-under 139 at the Jerry Pate Intercollegiate in Birmingham, Alabama. Woods was three strokes off the lead heading into Tuesday's final round on the Shoal Creek course that in 1990 became embroiled in controversy over its all-white membership.

#### RESCUE: A Solo Sailor's Night of Struggle and Fear on a Sinking Ship

Continued from Page 1

failed. Almost a month later, Covote was found floating upside down.

The British Coast Guard received Mr. Hall's distress signal and relayed the infor-mation to BOC race headquarters in Charleston. In the meantime. Mr. Hall had switched on his boat's main bilge pump, then an extra emergency pump. The mechanisms were spitting out as much as 3,600 gallons (13.600 liters) of sea water an hour.

Rick Viggiano. an electronics expert in Portsmouth. Rhode Island, who was part of Mr. Hall's shoreside team, said that the

boat was close to sinking.

"He was fighting a losing battle." Mr.
Viggiano said. "It's a tribute to his cool that he kept it up so long."

Alan Nebauer of Australia, skipper of the 50-foot boat Newcastle Australia, was the closest competitor to Mr. Hall, sailing about 90 miles northwest of him. Alerted to his plight during a scheduled short-wave radio transmission. Mr. Nebauer changed course. He headed toward Mr. Hall immediately, knowing, as all BOC racers do. that in an emergency, they have to rely one another. (He did not have to worry about lost time; race officials give a time allow-

ance to the rescue boat.) In the 1990-91 race, Mr. Hall had been instrumental in passing on messages to aid in the rescue of John Martin, who was the leader in his boat class at the time. Mr. Hall was seventh in his, Class I, when his boat was hit.

my nine lives up now.

As he struggled to survive aboard Gart-more, Mr. Hall said, his emotions ran wild. "At first I thought, my time is really up this time," he said. "I've got a lot of miles at sea now. Oh my goodness. I've used all

During the seemingly endless hours of a life-and-death struggle, Mr. Hall's on-board telephone rang eight times. Some-where in the flurry, he placed a call to his wife, Laura, in England, Filled as he was with remorse about putting her and their 2-vear-old son, Sam, "in harm's way," Mr. Hall said he broke into tears upon hearing

"It took awhile to get my composure." he said. "She knew about the situation. and she said: 'Don't worry, you'll be all

'At first I thought, my time is really up this time. I've got a lot of miles at sea now. Oh my goodness, I've used all my nine lives ир дом.

Josh Hall, ocean racer

right. Help is on the way.' From that point on, I knew I would be all right. It was a

turning point in my mind."

He set about inflating his life raft and lashing it to the side of his yacht, which was making slow headway west to rendezvous with Newcastle. Then he started putting items into the floating raft - two bags of clothes, food (knowing that Mr. Nebauer certainly had not planned on a guest), and personal items, the most im-portant of which were pictures of Laura and Sam.

"I was getting increasingly worried," Mr. Hall said. "There were these horrendous groaning and creaking sounds. I knew that if the bulkhead broke completely, the boat would go down in 20 minutes." It was a sweet sight, he said, when he spotted the lights of Newcastle on the horizon. At 0330 GMT, the next day, Mr. Hall abandoned Gartmore in the dark. He stopped the bilge pump and opened the sea cocks before he left. He wanted the hull. already awash with water, to sink so that it would not be a hazard to others.

Getting over to Newcastle was its own saga. Ten-foot seas pitched the yacht like toy in a tub. And having loaded his life raft so fully, Mr. Hall nearly sank the inflatable vessel when he stepped off Gartmore. Mr.
Nebauer threw him a line and then
dragged the raft to Newcastle's side.
The two sailors are settled into life at sea

now. Isabelle Autissier of France won the first stage in the BOC race, arriving in Cape Town early Sunday. But Newcastle Australia has another 2,100 miles to go about 12 more days at sea. Mr. Hall is trying to sort out his life. He

sits as a passenger on a boat that, under the race's rules, he is not allowed to help sail. And he has a lot of time to think.

"In some ways it's good I had to stay out here," he said. "I'm not affected so much anymore. But for a while, I was looking over every wave expecting something I didn't know about on the other side."

# The Angry Americans

By Russell Baker

TEW YORK - Anger has become the national habit. You see it on the sullen faces of fashion models who have obviously been told that anger sells. It pours out of the radio all day. Washington journalism hams snarl and shout at each other on change sneers on TV and printed page. Ordinary people abuse congressmen and president with shockingly personal insults.

America is angry at Washington, angry at the press, angry at immigrants, angry at television. angry at traffic, angry at people who are well off and angry at people who are poor, angry at olacks and angry at whites.

The old are angry at the young, the young angry at the old. Suburbs are angry at cities, cities are angry at suburbs, and rustic America is angry at both whenever urban and suburban intruders threaten the peaceful rustic sense of having escaped from God's Angry Land.

Enough: A complete cata-logue of the varieties of bile spoiling the American day would fill a library. The question is why. Why has anger become a reflexive response to the inevita-

ble vagaries of national life? Living perpetually at the boiling point seems to leave the country depressed and pessimistic. The popularity of anger is doubly puzzling, not only because the American habit even in the worst of times has traditionally been mindless opti-mism, but also because there is relatively little nowadays for the nation to be angry about.

The explanation, I suspect, is that the country got itself addicted to anger and can't shake the habit. It was hooked long ago when there was very good reason for anger.

Massive, irritating and even scary expressions of it were vital in shaking an obdurate govern-ment, contemptuous of public

opinion, from its determination to pursue war ad infinitum in Vietnam. Massive, irritating and even scary expressions of anger - from Americans both black and white --- were needed for the triumph of Martin Luther King and the civil rights movement.

But what monumental strugtelevision. Generations ex- gle confronts us now? Giving young black people a stake in America is our most pressing problem, but nobody shouts much about that. Most other problems are so unmonumental that we might think the times ripe for greatness: an era of civility conducive to good feeling among neighbors of all races and persuasions, a golden age of progress in learning and the arts and science

Is this making you angry? It's easy to imagine the cries of rage from a people habituated to crying rage: Are women not still oppressed by glass ceilings? Do black Americans no longer have to suffer the disrespect of a racist world? Who dares talk of prosperity when the wealth is distributed so unfairly?

True, all true. There is far too much poverty, racism remains an affliction, women still don't have economic equality with men. These present economists. philosophers and statesmen with exceedingly complex problems not amenable to solution by red-hot anger.

Politically minded people concerned with these issues have always known that low-grade anger must be maintained, that political feet must be kept to the fire, that the squeaky wheel gets the grease, and so on. The highintensity fury now seething through the land on these and a hundred other issues, however, doesn't seem focused on any social or economic goal. It's as though the nation got mad as hell a long time ago, got good results, and now can't shake the anger habit

New York Times Service

# Stealing the Muse: A Poet on the Trail of a Plagiarist

By William Grimes New York Times Service

NEW YORK — David Sumner is not a famous name in the world of poetry. Neither is he unknown. Like hundreds of other people, he has had reasonable success in placing work in tiny poetry reviews, most of them published at lesser campuses, and from time to time he has managed to break through to midlevel publications.

Sumner does stand out from the struggling poetry pack in one important respect, however. He doesn't exist.

For a brief but impressive run that lasted from 1990 to late 1993, 59 poems by "David Sumner" appeared in 36 literary journals, and 12 others had been accepted for publication. That success rate becomes more understand-

able considering that many of the poems were lifted wholesale from the published work of other poets and simply adorned with new titles. Summer plagiarized the work of at least five poets (only 14 of the 59 poems have been matched with the originals so far), but he specialized in the work of Neal Bowers, a poet and

teacher at Iowa State University and until re-

cently the editor of Poet and Critic magazine. In the fall issue of The American Scholar, in an anguished, angry article titled "A Loss for Words: Plagiarism and Silence." Bowers has outlined his two-year quest to track down the man he calls "the Ted Bundy of the poetry

Bowers first learned that his work had been plagiarized in January 1992, when he received a telephone call from Carrie Etter, the editor of Out Loud, a monthly poetry calendar and review in Los Angeles. She informed him that his poem "Tenth-Year Elegy." which had been published in the well-known journal Poetry in September 1990, had shown up, under the title "Someone Forgotten," in the December 1991 issue of the Mankato Poetry Review.

The author of the poem was identified as Sumner, who, the contributor's note stated, lived in Aloha. Oregon, and had published poems in the Hawaiian Review, Puerto del Sol and Mississippi Review Bowers enlisted his wife. Nancy, and the two

began leafing through stacks of poetry periodicals in his office to see if Sumner's name turned up. It did. "I'll bet it wasn't 15 minutes into it before we found the plagiarism of Mark Strand's 'Keeping Things Whole,' a famous poem," Bowers said in a telephone interview.

Bowers began calling and writing editors at poetry journals to warn them of submissions by Sumner, and gradually, as he received responses, a dossier began to build, and the facts about the mysterious Sumner gradually emerged.

The chronology of the plagiarist's activities, assembled by Nancy Bowers, now runs to nearly 60 pages. It begins with the first known poems published under Sumner's name, in spring 1990, and runs to the fall of 1993, when Sumner made his last known appearance in print, in Writer's Journal.

A survey of various contributors notes yielded this profile of Sumner: he was born in Belfast, lived in England until the age of 11. held a master's degree from Pacific University

and had studied poetry with William Stafford.

He certainly had made a close study of two short poems by Bowers, "Tenth-Year Elegy," a tribute to the author's late father, and "R. S. V. P.," a meditation on death. Unser various titles, he managed to have them private in 12 iournals and accepted at a start with the service. in 13 journals and accepted at six others. 1 ing with poems by Sharon Olds. Marcia horrow and Robert Gibb. "The two poems he stole are very autobiographical, and that's a creepy thing to me," said Bowers. "It's a very uneasy feeling.

were returned with rejection notes. On one occasion, he sent a plagiarized version of "Tenth-Year Elegy" to a journal that had accepted it six months earlier.

In a coup for Sumner, Whiskey Island Rein a coup for Sumner, Whiskey Island Review published, in the same issue, poems by Sumner and "Diane Compton," a pseudonym he began using toward the end of his spree. "He's sort of like a young aspiring poet with an MFA," said Bowers. "He knows the bustle. This may sound cynical, but the system is set up perfectly for him." Like any aspiring poet. Sumperson Books, Market

ner worked from Poet's Market, a standard guide to the roughly 4,000 magazines that publish poetry, and steadily built up his resume.

Bowers hired a lawyer, Bruce McKee of Des Moines, and eventually a private detective, to get to the bottom of the mystery. Working from return addresses on Sumner's submissions to various journals, he found that his plagiarist's real name was David S. Jones, of Aloha, Oregon.

Along the way. Summer took some strange turns. In early 1990, for example, he submitted 10 poems to Bowers's magazine. All of them

nois and in Oregon. The rest of the resume was largely faked.

McKee said the plagiarisms represented a clear-cut case of copyright infringement. Money was not an issue on either side, however flowers

said he simply wanted to stop the plagman.

For his part, Jones could not have chosen a
less promising route to riches. If they are limity contributors to poetry magazines receive a small payment, perhaps \$50 or \$100. Usually, they get nothing more than a couple of free

copies of the issue in which their poem appears.
Using a telephone number supplied by Boners' private investigator, Anne Bunch, Makee called Jones at home, but a man on the color end of the line convinced him that he had reached the wrong Jones.

Test. Wh

Talake Diffie

Oddly enough, one week later Bowers received a letter from "David Sumner," with an Odawara, Japan, postmark. In the letter, the man apologized for submitting "Tenth-Year Elegy" and explained that after having studied it in a poetry workshop, he had come to believe it was his own work. "I have read it and recited it many times since, and now I find out that I also took it to be my own," he wrote. He promised to stop submitting the poem, and he enclosed a \$100 money order payable to Box.

In the meantime, Bunch determined that the man McKee had been speaking to was none other than David S. Jones, the would be poet she said. Acting on the information, McKee called again.

This time, the man admitted his identity and a two-year game of cat and mouse ensued, with Jones admitting to specific instances of plagia-rizing Bowers's work, though purely by what he called "an accident of process," but neglecting to mention any journal or poem that was not first brought to his attention by McKee. Bowers also received abject letters of contrition and more money orders. Jones refused to sign a statement admitting his guilt.

"I am sorry for all that I have done against you," one letter read. "In a perfect world, an artist like you - a creator of beauty - should never have to come in contact with such an ugliness as me."

As the circle tightened around Jones, he began withdrawing submissions from poetry journals, saying he now realized that the works were unconscious plagiarisms. And then he simply disappeared.

"He could still be operating, simply by mutat-ing new pseudonyms," said Bowers, who says he can no longer read "R. S. V. P." and "1 entha master's degree from Pacific University. He Year Elegy' in the same way. "Those poems are ruined for me now, in some ways," he said.

# Maddux Wins a 3d Straight NL Cy Young

By Claire Smith
New York Times Service
NEW YORK — It will be years before Greg Maddux knows whether he will grace the stage at Cooperstown and join the likes of Sandy Koufax, Jim Palmer, Whitey Ford, Tom Seaver, Bob Gibson and Steve

But Maddux already knows that he has achieved something none of those Hall of Fame pitchers has.

In a unanimous selection for a season curtailed by a strike, Maddux on Monday was voted the National League Cy Young Award winner for a third straight year by the Baseball Writers Association of America It marked the first time that the voting body for both the Cy

Young and league most valuable player awards has ever honored one player three consecutive years in one category. The Atlanta Braves' righthander, who admits that his first Cy Young with the Chica-go Cubs in 1992 will always be

the most special one, was none-

theless honored when informed

that No. 3 elevates him into a category all his own.
"You always set goals, but to win a Cy Young, or to even win U.S. Mediator and Players to Meet

The Associated Press

NEW YORK - The U.S. government mediator, W. J. Usery, was to meet with the baseball-player union's staff on Tuesday, but it appeared that the sides in the major league baseball strike would not meet jointly until the end of next week at the earliest.

Usery, appointed by President Bill Clinton on Oct. 14, wants to familiarize himself with each side. He has yet to schedule a meeting with management, and some owners will be busy next Tuesday with expansion presentations in Chicago.

Eugene Orza, the union's No. 2 official, said players' representatives would be at their association's office in New York on Tuesday to speak with Usery.

Owners intend to modify their proposal when the sides meet again to put it in a form they can impose if they declare an impasse. In a memo outlining the changes, manage-ment negotiators told clubs that signing bonuses given this offseason helped players continue the strike, but they left each club free to make its own decision.

The union claims the memo may be a veiled instruction that violates the collusion prohibitions in the labor agreement that expired Dec. 31 but remains in effect.

"The question is whether or not a reasonable man or woman who knows about this industry sees it accompanied by a wink or not," Orza said. "If you could find a reasonable man or woman familiar with the industry who doesn't see that wink, he's going to need some really, really thick glasses."

A management lawyer, Chuck O'Connor, said the memo did not block clubs from giving signing bonuses to free agents, who can sign with other teams starting Sunday.

three of them, was never really a his career since the award was goal," Maddux said from his instituted in 1956. But none of home in Las Vegas. "I think the other five — Carlton, who 1963, 1965, 1966) came closest, that any time you exceed your won a record four Cy Youngs; own expectations, it's even that Koufax, Seaver, Palmer and much more gratifying."

Maddux is the sixth pitcher Maddux's lightning-quick pace. to win the award three times in Palmer (American League fornia Angels in 1964, when players' strike.

winner in 1973, 1975, 1976) and Koufax (major league winner in 1963, 1965, 1966) came closest, came in his last nine starts. and few doubt that Koufax

only one Cy Young was given in the majors. (See Scoreboard)

That Maddux joined such company at age 28 amazed him.
"It's not the same way I look
at myself, that's for sure," he
said. "When you have guys of
that magnitude you never imagine being as good as those guys.

Those guys always seem to be what you strive for as a pitcher to be like." Nevertheless, he was named first on all 28 ballots by the committee comprising two writers in each National League city. Ken Hill of Montreal was

second and Bret Saberhagen of the New York Mets third. Maddux became the 13th pitcher to be unanimously selected, and the first since the Dodgers' Orel Hershiser in 1988.

Maddux won 16 games, which tied Hill for the league lead. No National League pitcher came close to his pristine 1.56 earned run average. His three shutouts and 10 com-

And he was the only pitcher would have been a winner four in the major leagues to work Roger Clemens - can boast of years in a row had he not lost 200 or more innings (202) in a out to Dean Chance of the Cali-season ended 52 days early by a

by Eric Allen, setting up a 1-yard run by Eagles'

rookie Charlie Garner in the second quarter. Barnett got loose in the Houston secondary in the third period for a 53-yard touchdown that increased Philadelphia's lead to 14-6. The Oilers' defense made it easy for Randall Cunningham, who, despite completing only 13 of 24 passes, threw for 310 yards.

Houston missed a big opportunity with the Eagles leading 7-6 in the third quarter. Carlson moved the Oilers to the Philadelphia 26, but the drive ended when Gary Brown fumbled while being dropped for a 6-yard loss.

The Oilers' biggest mistake came early in the fourth period after backup quarterback Billy Joe Tolliver drove them 74 yards to the Philadelphia 2. Brown was unable to handle Tolliver's pitch on a sweep, and the ball bounced into the arms of Eagles linebacker Britt Hager.

Carlson has been injured twice this season, and left Monday's game in the fourth quarter after taking several hard hits on his sore right shoulder. He completed 11 of 24 passes for 164 yards in his first start since getting knocked out against Pittsburgh on Oct. 4.

ishing the 1994 season.

turned, plus interest.

of the suit is very simple," said Schellbach's lawyer, Philip Aidikoff. "In purchasing season tickets, fans bargained for and were promised a meaningful season of baseball culminating in pennant races, playoffs and a World Series.

"What they got was a partial season consisting of what turned out to be meaningless exhibition games," he added. "That's because the commissioner last month declared that for official record-keeping pur-poses, there were no National or American League champions. That, for all intent and purposes, renders the 1994 season a wash."

"We believe that they're ment.'

# For Action

angry about the major-league baseball strike? One disgruntled fan decided not to take the affront sitting down any-more, beginning legal proceedings against those who have deprived him of

The lawyer for the fan who sued the Los Angeles Dodgers argued Monday that baseball owners violated a contract with seasonticket-holders by not fin-

suit Thursday in Los Angeles Superior Court on behalf of himself and other seasonticket-holders, claiming they should have all money for tickets and parking re-

# Election in Moscow: A Little Strange but Very Normal

By Steven Erlanger New York Times Service

MY TISHCHI, Russia - This is a measure of politics in the new Russia. symbol is an elongated white swastika There will be a special election here on a black field. Mr. Fyodorov calls Sunday to replace a member of Parlia- for Russian purity and the fight ment gunned down outside his apart- against crime, in that order. ment house in late April, in a killing thought to be mob-related.

One of the 12 candidates is Konstantin Borovoi, the founder of the first commercial exchange in the Soviet Union, whose posters show him in audience with the patriarch of the Russian Orthodox Church, Alexei II. Mr. Borovoi says he narrowly escaped assassination twice in a year.

There is a nationalist candidate, Andrei Sidelnikov, whose posters show him with the grieving mothers of soldiers killed in Afghanistan. Another candidate. Leonid Barashkov, a businessman, boasts of financing a soccer team and creating a new bus route, then offers three "Barashkov family recipes" using mushrooms.

Russian National Unity party, whose

But the favorite in the race is Sergei Mayrodi, the mysterious boss of the MMM financial pyramid, who was released from jail to run and who can stay out of jail by winning the seat. Given the stakes for his future, Mr.

Mavrodi is pulling out all the stops in this suburban electoral district just north of Moscow: making big promises that remind everyone of his MMM advertisements, buying lots of air time and newspaper space, sponsoring con-certs, posting placards and distributing leaflets.

But Mr. Mayrodi has not set foot in the district, said the deputy chairman spokesman, Sergei Taranov, said Tues- lapse as the act of a willful government Borovoi promises that his "business maybe."

si-fascist. Alexander Fyodorov of the were "ineffective," that Mr. Mavrodi cut him down. was visible on television, and that he did not want to "push it" with the courts by leaving Moscow.

Avoiding prison, "of course, is one key aim," Mr. Taranov said, "But the main aim is to use the immunity to protect the interests of MMM shareholders through politics." Mr. Zhigulin said he thought Mr.

Mavrodi had a good chance. "After all," he said, "36,000 MMM shareholders live in My Tishchi alone." The same number live in nearby Khimki, another of the five towns in a district of some 2.5 million people and 500,000

"The shareholders are probably enough to win," Mr. Zhigulin said. Some shareholders are angry with the MMM collapse, which took most of their investments. But the fund itself of the local election committee, Vyanever really died, and many believed cheslav M. Zhigulin, Mr. Mavrodi's Mr. Mavrodi, who portrayed the col-

MMM's advertisements became tions, an apartment in Paris — through his investments in MMM.

"Mavrodi's campaign is exactly the same," said Anna Sikder, a 23-year-old shopping in the local supermarket. "Mavrodi promises to turn My Tishchi into a little Switzerland."

He has some way to go. Only 56 percent of the families in the district have telephones. In Khimki, cuts in military spending have crippled three big factories that once employed nearly 50,000 people and controlled 70 percent of the town's housing stock.

Mr. Mavrodi not only promises voters that he will spend \$10 million on improving the district, but that every hope Mavrodi and his type won't come household will get a telephone. Mr. to power. But they're getting closer,

#### Bosnian Serbs Fire On UN Tanks

SARAJEVO, Bosnia-Herzegovina (Reuters) — UN tanks Gane under fire from Bosnian Serb forces on Wednesday, but the United Nations decided against ordering an air strike in response

UN spokesman said. The Danish Leopard tanks returned fire from a Bosnian Serb tank and recoilless gun near the northern town of Gradacae before withdrawing A UN military spokesman, Colonel Tim Spicer, said: "We believe one Leopard was hit but there are no reports of

casualties." The United Nations set in motion the procedure for a NATO air strike before deciding such a response was not warranted. In explaining why an air strike was not ordered. Colonel Spicer said that "in fact the best tank-killing weapon is another tank. In the end air was not needed."

#### Migration Accord at Risk, Cuba Says

HAVANA (AFP) - The decision of a U.S. judge to temporarily halt the repatriation of Cuban refugees from Guantinamo threatens the implementation of a migration accord between the United States and Cuba, the National Assembly president, Ricar-

"This is a serious and negative development," said Mr. Alarcon, who is representing Cuba in talks with the U.S. government on carrying out a Sept. 9 agreement that ended an exodus of Cuban boat people to the United States.

U.S. District Court Judge Clyde Atkins issued a temporary restraining order Tuesday in Miami, one minute before a U.S. military plane with 23 Cubans on board was to take off for Hayana from the U.S. naval base at Guantánamo Bay, on Cubasa do Alarcon, said.

Havana from the U.S. naval base at Guantánamo Bay, on Cuba's southeast tip. About 32,000 Cuban refugees who were refused entry to the United States after being picked up at sea are being? held at Guantanamo and in Panama

#### Russian Team Flies to Site of Oil Spill

MOSCOW (Reuters) — Russian officials flew to the northern region of Komi on Wednesday to investigate an oil spill that U.S. officials say could have a disastrous impact on the fragile Arctic

But local officials tried to play down the significance of the spill, the result of pipeline leaks and the breakage of a dam containing the leaked oil. "There are all these fairy stories about a leak of 200,000 tons of oil." said Nikolai Balin, head of the regional environment committee. "It is stupid. The most plausible figure is 14,000 tons." That would be just over 100,000 barrels.

The Russian Environment Ministry has said the spill is as much as 438 million barrels, while the U.S. Energy Department has said it was estimated to be more than 2 million barrels by U.S. experts

#### For the Record

Three blacks were jailed for 18 years each on Wednesday by a South African judge for the murder of Amy Biehl, an American exchange student. "Taking all mitigating and aggravating circumstances into account, the court comes to the finding that the death sentence is not the only appropriate sentence," said Judge Gerald Friedman. Mzikhona Nofemela, Vusumzi Ntamo and Mongezi Manqina had pleaded not guilty.

# **EU Leader Puts Off** Leaving

PARIS - The president of the European Commission, Jacques Delors, said Wednesday he would remain in his post in Brussels at least until Jan. 25 because of a delay in approving a new commission.

Mr. Delors, widely expected to be the Socialist candidate in the French presidential elections in the spring, was supposed to vacate his position on Jan. 6 but agreed to stay on until Jan. 25. He said the length of his stay beyond Jan. 25 would depend on when the European Parliament endorsed the new commission.

Mr. Delors has said he will not announce whether he is a candidate for the French presidency until he ends his Brussels

Political analysts said the delay would strengthen Mr. Delors's position, since it would enable him to remain above the fray while the rival contenders for the conservative nomination go at one another.

The 12-nation European Union has chosen Prime Minister Jacques Santer of Luxembourg to replace Mr. Delors. but Parliament wants to defer approving his full team of commissioners until after four new member states join the EU and can vote. The four, Austria, Finland, Sweden and Norway, are scheduled to join in Janu-

Opinion polls show Mr. Delors has almost drawn even with Prime Minister Edouard Balladur and has overtaken the Gaullist party leader, Jacques

# Kohl, With Tiny Majority, Is in for Tough Bargaining

By Rick Atkinson

BERLIN - German politics, for 12 years a predictable and orderly affair, suddenly got very messy this week.

Bickering within the ruling coalition, elbowing for government posts and a constitutional challenge have underscored the fragility of Chancellor Helmut Kohl's 10-vote majority in the 672seat Parliament which is set to convene next

The victory of Mr. Kohl and his Christian Democratic party in the Oct. 16 elections has been quickly overshadowed by the obstacles looming before his badly weakened coalition. that was whittled down from a 134-seat majority.

As coalition leaders began meeting Monday night for three weeks of hard bargaining over the new government's goals and cabinet appointments, it became apparent that even Mr. Kohl a three-term chancellor with a reputation as a master politician and eternal optimist - has his work cut out if his tenure is not to end in a lameduck whimper.

Although often arcane and parochial, German parliamentary politics will not only determine Mr. Kohl's success in pressing his foreign agenda for tighter European unity and a broader German role in international affairs, but it will also be critical in such urgent domestic issues as economic competitiveness and immigration

Foremost among coalition woes is the sad shape of Mr. Kohl's junior partner, the liberal Free Democrats.

percent minimum needed to remain in the

among themselves. The party leader, Klaus Kinkel, who also is foreign minister, this week repelled a challenge from former economics minister Jürgen Mölle-

The chancellor's objective: Not to end his tenure in a lameduck whimper.

mann, his political rival, who accused Mr. Kinkel of leading the Free Democrats "into the abyss." Mr. Möllemann resigned his party post Monday, leaving the field to Mr. Kinkel.

But discontent bubbles just beneath the surface. The Free Democrats are at odds over how best to halt the free fall in their popularity among the German electorate.

The party is short on glamour and its traditional core agenda — free-market economics, government deregulation and a commitment to civil rights - has largely been co-opted by the major parties.

Some liberal leaders insist that in negotiating with Mr. Kohl, who needs the Free Democrats' 47 votes to maintain the status quo in Bonn, the party should play hardball in an effort to sharp-

the Free Democrats were humiliated in nine rate taxes, insisting on the right to dual citizenconsecutive state elections before surpassing the ship for foreign residents, slashing red tape, and - in an effort to resuscitate Free Democratic federal assembly by less than 2 percentage points strength in Eastern Germany — declaring the — party faithful promptly fell to squabbling East to be a "low-tax zone." East to be a "low-tax zone."

"We are a dinosaurs' club," a liberal from the East lamented during the campaign. "We're dy-

ing out."
But the Free Democrats hardly resemble a hardbali team.

The party's boss in the state of Rhineland-Palatinate said publicly that the party is so weak it must show "restraint."

As to suggestions that some liberal malcontents might rebel against Mr. Kohl when the Bundestag, the lower house of parliament, votes for chancellor in mid-November, the party stalwart Otto Lambsdorff, a former economics min-ister, warned, "Whoever does that knows perfeetly well that he will have given the party a death blow."

Poised to profit from Free Democratic weakness are the Christian Social Union, the Bavarian sister party of Mr. Kohl's Christian Democrats. After grabbing more votes than the liberals in elections, the conservative party is feeling its

Erwin Huber, the party's general secretary, warned the Free Democrats this week not to press for foreigners' rights, while asserting that his party "will be pushing harder for effective crime-prevention laws with no messing around." Difficulties will likely develop when it comes

to handing out cabinet ministries. The Free

Democrats now hold five of 19 posts; having advocated a smaller cabinet, they may find themselves victim of their own policy suggestion.

Discontent has also roiled the normally placid Christian Democrats. A Kohl plan to save nearly \$3 billion a year by curbing unemployment bene-fits was challenged last week by the pro-labor wing of his party, which called for tax breaks for the poor.

At the same time the chancellor is under pressure from the Bundesbank, or central bank, to cut the burgeoning federal deficit and from Ger-many's employers' federation to cut expensive social welfare benefits.

Such countervailing pressures are symptomatic of the delicacy with which Mr. Kohl will have to navigate on many issues.

Further complicating the post-election maneuvering is a legal challenge by the constitutional expert Hans Meyer, who contends that a quirk in German election law illegally boosted Mr.

Kohl's majority from 2 to 10.

The chancellor got the extra cushion through an electoral wrinkle that permits creation of additional seats under certain conditions; the issue may be headed to the country's constitu-

All of which brings good cheer to the opposi-tion Social Democrats and their leader, Rudolf Scharping Mr. Kohl "will have to fight incessantly for a

majority in the Bundestag," predicted Rudolf Dressler, the Social Democrats' deputy parliamentary leader.

"I cannot see this coalition doing that, and therefore I don't think it will last 12 months."
